# Introduction to Symbol Crochet

In this book of doilies, we've included not only the traditional crochet instructions, completely written out the way you're used to seeing them, but also the same exact instructions presented in symbols.

In symbol crochet, each stitch is represented by a little picture, or symbol. When symbols are arranged to form a "picture" of the work to be done, it is called a "diagram." The diagram looks quite similar to the finished crocheted piece and shows at a glance just how it is constructed. Each of these seven doilies includes a symbol diagram and stitch key, along with written instructions.

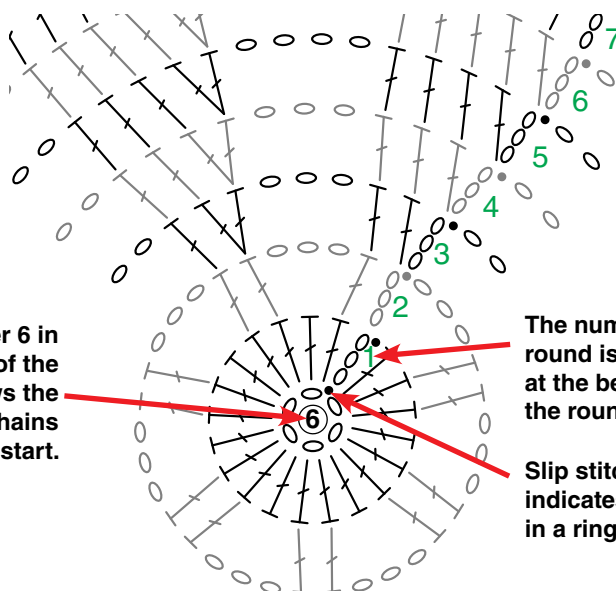

On circular designs such as doilies, the diagram is followed starting at the center, working from right to left (counterclockwise) if you are right-handed, and from left to right (clockwise) if you are left-handed.

The symbol for chain shown in the center ring shows the number of chains needed to get started.

The symbol for slip stitch indicates joining in a ring.

The number of the round is indicated at the beginning of the round.

So sit down and explore this crochet experience called symbol crochet.

The number 6 in the center of the ring shows the number of chains needed to start.

The number of the round is indicated at the beginning of the round.

Slip stitch symbol indicates joining in a ring.
