Do you make New Year's resolutions? I do, and like a lot of you (I'm guessing), I'm terrible at keeping them. In 2017, I resolved to take better care of myself, have more adventures, learn new things, and crochet every day. I'm carrying these goals with me into 2018, and this issue is here to help. If you want to tackle these resolutions, too, read on, dear crocheters!

Self-Care. The best way to indulge in a little self-care is to take time to pamper yourself. Had a long, hard day at work? Had to shovel your car out of the snow? Grumpy because you haven't seen the sun for days? Come inside, light some candles, heat up the hot cocoa, and flip to page 46. We have a whole series of projects perfect for cuddling up, getting cozy, and taking time for yourself.

Adventure. Ready for an adventure? Turn to page 16 for projects inspired by the "Little Red Riding Hood" fairy tale. Whether you're headed on a grand journey to grandma's house this winter or just looking for a little escapism, these projects are what you need. We even have three gorgeous garments in unisex sizing!

Whispering Pines Hat, page 26.

Enchanted Wolf Scarf, page 26.

Learn. This issue features three ways to work crochet ribbing. Try out the three quick fingerless mitts projects to get your practice in with these new techniques. Interested in community-art projects? Learn about crochet billboards coming to a town near you and how you can get involved.

Crochet Every Day. Best of all, if you want to crochet every day, you've come to the right place. You would have to crochet all day, every day to make all of the projects in this issue (they're all fantastic—if only we could!). Before you do anything else, start your year off with crochet. It's self-care, adventure, and learning all in one!

Have a wonderful winter and a happy New Year!

Sara

Hook Reviews

Treat yourself to these incredible addi crochet hooks and crochet in comfort.

Addi crochet hooks are made in Germany and distributed by Skacel. Note that all addi hooks are manufactured to exact metric sizes; U.S. sizes are listed only as approximations. For greatest accuracy, always refer to the listed metric size.

1 CLASSIC addi Comfort Grip (Color Coded) Hook

This issue is all about treating yourself, and there is no better way than with the classic addi Comfort Grip Hook. This is the most well-known hook from addi for good reason. The shaft is color-coded for easy organization and has fine ribbing for optimal finger positioning. The handle has a larger ribbed grip that feels great on your hand no matter how you hold your hook. It is available in sizes 2.0 mm through 6.0 mm.

2 ERGONOMIC addi Swing and addi Swing Maxi Hooks

Take comfort to the next level with the addi Swing crochet hook. This one-of-a-kind shaping was designed with ergonomics in mind; it is flexible and fits right into the shape of your hand. Swing hooks are also color-coded and labeled with metric sizing for convenience. Larger hands might enjoy the Swing Maxi, which is slightly longer than the standard addi Swing. The standard addi Swings are available in sizes 0.5 mm to 8.0 mm, and the addi Swing Maxis come in sizes 2.0 mm to 8.0 mm.

3 VERSATILE addi Double-Ended Hook

Made from a lightweight aluminum, this hook is both durable and easy to maneuver. It features a hook of the same size on each end, making it perfect for Tunisian stitches in the round or two-color Tunisian. It's even great for creating reversible ribbing! This double-ended hook is available in sizes 2.0 mm to 6.0 mm.

4 WARM addi Natura Bamboo Hook

The addi Natura Bamboo Hook is lightweight and warming to the touch because of its natural material. The hook is coated in carnauba wax, allowing it to work in harmony with your yarn of choice. It features inline shaping and a sharp, pointed tip, making it easy to insert into and work your crochet stitches. This natural bamboo hook is available in sizes 2.00 mm to 12.00 mm.

5 BEAUTIFUL addi Olive Wood Crochet Hook

The Olive Wood Hook is modeled after the classic Comfort Grip Color Coded Hook and has the same ribbing on the shaft of the handle, but it features a durable turbo-plated tip and a gorgeous olive-wood handle. With its secure grip, warming feel, and beautiful look, you won't want to put this hook down. This hook comes in sizes 2.00 mm to 6.00 mm.

Relax into Winter!

These lavender products will help you indulge in a little self-care this season.

1 MYBAGGEE PROJECT BAGS

Grab a mybaggee mesh bag in lavender for easy storage of your current crochet project. The transparent mesh makes it easy to see which project you have inside, the snaps make the bag easy to open, and the removable handle ensures you'll always have your crocheting at hand. These bags come in four convenient sizes: small (pictured), medium, large (pictured), and jumbo.

Manos del Uruguay Fino
(distributed by Fairmount Fibers)

Getting Started

FINISHED SIZE About 6" circumference and 7½" long, unstretched.

YARN Manos del Uruguay Fino (distributed by Fairmount Fibers) (30% silk, 70% merino wool); 490 yd [450 m]/3½ oz [100 g]; (#11): #427 mourning (A), #419 brass button (B), 1 hank each.

HOOK Size H/8 (5 mm) double-ended Tunisian crochet hook. Adjust hook size if necessary to obtain correct gauge.

NOTIONS Yarn needle.

See the Glossary on page 68 for terms you don't know. For our master glossary, visit <http://bit.ly/iwc-glossary>.

Notes

Odd-numbered rows are forward passes worked from right to left by picking up stitches and holding them on the hook. When picking up under a horizontal stitch, insert hook under all strands of the horizontal stitch (in other words, in the space between two vertical bars).

Always turn your work at the end of a forward pass when you have picked up all of the stitches.

Even-numbered rows are return passes worked from left to right until you have 1 loop on the hook. Do not turn at the end of this row.

Carry unused yarn up along side edge. See page 14 for a guide to working double-hook crochet.

RIBBING WITH POST STITCHES AND FRONT/BACK LOOP ONLY

Lisa Naskrent

Every Way Ribbed Mitts by Lisa Naskrent, page 6.

In crochet, ribbing can be used when stretch is needed, and it is essential when part of a garment, such as the cuff of a mitten, needs to expand and contract. Other times, ribbing serves no functional purpose and is used for decoration. In this article, we'll discuss two techniques used to create crochet ribbing: complementary post-stitch combinations and nontraditional hook insertions.

Post Stitches

Alternating front post and back post double crochet stitches.

In complementary post-stitch combinations, a bit of functional magic happens when you alternate front post double crochet (FPdc) and back post double crochet (BPdc) stitches across and then build on them row after row. Vertical columns form, and the fabric stretches and contracts horizontally. The surface area of the fabric remains the same, but when FPdc and BPdc alternate and build, they tend to scrunch up a bit next to each other like an accordion, and it's this scrunching that creates the functional characteristics of ribbing.

Working a front post double crochet.

Working a back post double crochet.

Front or Back Loop Only

Ribbing made with back-loop only single crochet.

Changing where the hook is inserted into the stitch creates ribbing and stretch in crochet fabric. Traditionally, the hook is inserted into the top two loops of a stitch; working into the front loop only (flo) or the back loop only (blo) will have a great effect on the density and drape of the fabric. The fabric will be less rigid and therefore more fluid.

Ribbing is created by working a stitch in the back loop, leaving the front loop to create a ribbed appearance.

Can we combine techniques to really explore the effects of ribbing and density of fabrics? Can ribbing go both vertically and horizontally? The answer to both questions is yes, and the effects will produce a fabric that not only stretches in both directions, but also reinforces as it moves and supports as it contracts. Try it in the Every Way Ribbed Mitts on page 6.

LISA NASKRENT is, at heart, a creator. She loves to combine techniques, especially cables and lace. Find more of her designs at www.crochetgarden.com.

A NEW SLANT ON Slip-Stitch Ribbing

Janet Brani

A confusing part of crochet for beginners and experienced stitchers alike is where (under which loops or around which posts) to make the next stitch. But what many don't realize is that the freedom to insert your hook anywhere creates endless possibilities! The diagonal slip-stitch pattern is the result of my looking down at the top of a row of stitches and wondering "what if."

Little Stitch, Big Debate

Using slip stitches to create fabric is regarded by some as an advanced technique, yet the slip stitch is technically the most basic of stitches. So why all the angst over this tiny stitch? Perhaps the slip stitch has a complicated reputation because using it to create fabric is such a slow process, or because it's hard to maintain an even tension when crocheting slip stitches. Although these are valid points, there is no denying the wonder of the finished product! Slip stitches create a truly stretchy rib without the bulk of typical crochet "workarounds," and the solid fabric is perfect for warm and stretchy hats, mitts, and cuffs, to list a few.

Try Diagonal Slip Stitch

The diagonal slip stitch is worked under two loops (one loop each of neighboring stitches). Your hook will not glide under both loops in one easy motion, so the process is more like "scoop under the front loop of the first stitch, scoop under the back loop of next stitch, yarn over, pull up a loop." A smooth hook with a pointed tip will make this much easier. Try it out! Your extra effort will yield a fabric with a firm stretch, a pronounced rib, and a knit-like appearance.

To begin your trial swatch, work a foundation chain of desired length.

Set-up row: Working in the top lp of the ch only, sl st in the second ch from the hook and in each rem ch across, turn.

Row 1: Ch 1, ① insert the hook in the flo of the first st and then ② in the blo of the second st, yo, draw through all lps on hook (first diag sl st made), [insert the hook under the unworked front lp of the previous st and then under the blo of the next st, yo, draw through all lps on the hook] across to last st, insert hook under the unworked front lp of the last st, yo, draw through all lps on hook, turn.

Next rows: Rep Row 1.

Insert the hook in the front loop only of the first stitch (Image 1), then insert the hook in the back loop only of the second stitch (Image 2).

DOUBLE-HOOK MITTS

Tutorial

Darla J. Fanton

Double-Hook Mitts
by Darla J. Fanton,
page 7.

Although many people consider double hook to be the same as Tunisian crochet, I think of them as sister techniques. Like most sisters, they have similarities as well as differences.

Tunisian hooks are long with a button or knob on one end and a crochet hook on the other; double hooks have a crochet hook of the same size on each end. Both of these hook styles come in different lengths, sometimes with cables, and sometimes in interchangeable sets that allow the crocheter to adjust the length of the hook by selecting the desired cable length.

Generally in Tunisian crochet, you do not turn the work; the right side is always facing you. In double hook, you turn the work after each forward pass. There is no right or wrong side—only a side A and a side B.

Tunisian crochet instructions are usually written with the forward pass and return pass as part of the same row. In the pattern for the Double-Hook Mitts, I wrote the return pass as a separate row to emphasize the need to turn the work after the forward pass.

For dramatic effect, double-hook projects are usually worked in at least two highly contrasting colors, as seen in the Double-Hook Mitts. The result is a reversible project with a distinctly different color on each side. If you like, you can use two balls of the same color, but the ribbing will remain the same. If you decide to use one color to follow along with this tutorial, I suggest marking the balls A and B.

The Double-Hook Mitts do not have any additional edging around the top and bottom edges because that could interfere with the stretchiness of the ribbing stitch. I have included the method I used to carry the unused

color of yarn neatly along the side edges of the work.

The mitts are worked over 44 stitches (sts); the gauge swatch/tutorial samples are worked over 25 sts. Note that picking up a loop (lp) in the first chain (ch) is possible when you are working in the back bar of the ch. Using the first ch eliminates a little bulk in the foundation row.

Row 1: With A, ch 24, working in back ridge lps, pick up lp in first ch and each rem ch across **①**, slide lps to opposite end of hook **②**, turn—25 sts.

1

2

Row 2: Place B on left end of hook and draw through first lp on hook **③**, *yo, draw through 2 lps (1 lp of each color) **④**; rep from * until 1 lp rem on hook **⑤**. Do not turn.

To carry yarn up side edge: Before picking up sts, working from front to back, place A (the unused color) over the top of the work to the left of the st that is on the hook. When you pick up the first st as indicated in the next row, the carried yarn will be secured at the height of the current row ⑥.

Row 3: With B, pick up a lp in sp under each horizontal st across by inserting your hook under all strands of the horizontal st (this looks like a connecting ch—you might also think of it as the sp bet two vertical bars) ⑦, slide lps to opposite end of hook, turn ⑧—25 sts.

Row 4: With A, yo, draw through first lp on hook, *yo, draw through 2 lps; rep from * until 1 lp rem on hook. Do not turn.

Row 5: Carry B up ⑨, with A, pick up a lp in sp under each horizontal st across, slide lps to opposite end of hook, turn—25 sts.

Row 6: With B, yo, draw through first lp on hook, *yo, draw through 2 lps; rep from * until 1 lp rem on hook. Do not turn.

Rows 7–70: Rep Rows 3–6.

Bind off: With B, ch 1, sl st in sp under each horizontal st across, turn.

Plymouth Yarn Encore Mega

Getting Started

FINISHED SIZE 40" circumference and 15½" tall.

YARN Plymouth Yarn Encore Mega (75% acrylic, 25% wool); 64 yd [59 m]/3½ oz [100 g]; #60: #0240 (dark taupe, MC), #0577 (oatmeal, CC), 3 balls each.

HOOK Size M/13 (9 mm) double-ended Tunisian hook. Adjust hook size if necessary to obtain correct gauge.

NOTIONS Yarn needle; locking st markers (m), 9 same color, 1 other color.

GAUGE 8 sts and 8 rows = 4" in main patt.

See the Glossary on page 68 for terms you don't know. For our master glossary, visit <http://bit.ly/iwc-glossary>.

Notes

Piece is worked in spiral rounds using double-ended circular Tunisian crochet technique. A Tunisian crochet round consists of two passes: the main color (MC) is always used for the RS-facing forward pass to pick up loops, and the contrast color (CC) is always used for the WS-facing return pass to work lps off from the opposite end.

Rib pattern is created by working Tunisian simple stitches (tss) and twisted Tunisian simple stitches (twtss) in to the stitch of the same type one row below. The wave pattern is created using increases and decreases, which will manipulate the ribs.

Use stitch markers to indicate pattern repeats. Contrasting color marker is used to mark the beginning of the round. Move markers up as work progresses.

Stitch Guide

Twisted Tunisian simple stitch (twtss):

Insert hook from left to right under next vertical bar, yo, pull up lp.

Back bar increase (bbinc): Insert hook from front to back in ridge of return pass chain behind indicated st.

Pattern

COWL

With MC, ch 80, sl st in first ch to join, being careful not to twist.

Set-up rnd: With MC, pick up a lp in back ridge lp of each ch until curve requires you to work off lps from other end of hook, then work to WS, place CC on other end of hook, with CC, work off lps (see Notes) until a few lps rem unworked, turn work back to RS, with MC, cont to pick up a lp in each rem ch to end, turn work to WS, with CC, work off lps, turn to RS, place contrasting color marker in first st to mark beg of rnd. *Sk next 7 sts, place marker (pm) in next st; rep from * around—80 sts, 10 markers.

Note: Throughout piece, cont to work off sts with CC as needed to work in the rnd.

See the Glossary on page 68 for terms you don't know. For our master glossary, visit <http://bit.ly/iwc-glossary>.

Notes

Sweater is worked in pieces and sewn. Follow chart for colorwork. Read chart from right to left for RS rows and left to right for WS rows.

Colorwork uses tapestry crochet technique: carry unused color strand on top of last row and work over it, encasing unused color. To change color, work to last yarning over in old color, pick up new color, and complete stitch with new color. Parts of chart require changing color every stitch. Using the same

technique, begin each sc with the current color and finish with the oncoming color.

Colorwork rows are worked in single crochet. Check tension of your colorwork from time to time to maintain an even gauge. Work over a strand of MC on MC only sc rows to maintain same fabric thickness. Fasten off contrast color after each use.

Notes

To make a less visible join on Back Flap, do not chain 1. Right side (RS) faces throughout when working Side. This piece curves in the middle as work progresses; this is normal. Ribs of Side are formed by working reverse single crochet in front loops only of previous row. A row of single crochet or single crochet and half double crochet followed by a row of reverse single crochet counts as one row throughout the pattern.

Notes

Hat is worked from brim up. Brim is worked in turned rows. Body is worked in continuous rounds. Move markers as work progresses.

Make sure your stitch markers stay in place until you work post stitches into the marked stitches. In other words, the only stitch marker you should move up as you work is the contrasting marker

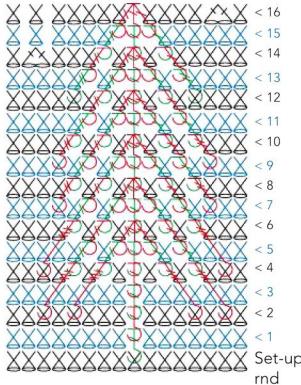

that designates the beginning of rounds.

When working cable pattern, place stitch markers as indicated to guide future rows.

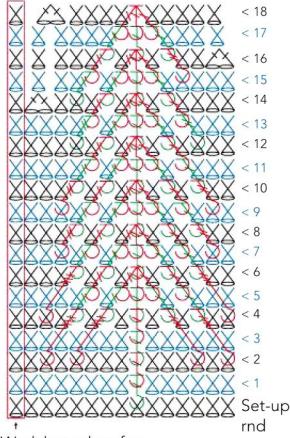

Use a contrasting stitch marker to designate beginning of rounds.

MAKE A CROCHET BILLBOARD!

The Project that's Coming to a Town Near You

Kathryn Vercillo

Crochet artist Olek has been inspiring the world for years with her large-scale yarn-bombing projects. Her newest project, Love Across the USA, takes this work to another level by including volunteers from across the nation.

THE LOVE ACROSS THE USA PROJECT

The goal of this collaborative crochet art project is to install a billboard celebrating a woman in history in every state of the United States in order to honor the positive voices that women have added to U.S. history—voices that sometimes went unrecognized in their own time. Each billboard features the crocheted image of a woman and a quote sharing her voice.

In writing for the project's website, Olek said, "It is only as a united group that we can promote positive women's voices and create real change. Just as many loops connect to create a strong crocheted fabric, we are stronger together."

The project's emphasis is on community. It isn't just for women; men are invited to contribute as well, and of

course so are children of all ages. It's meant to be inclusive, and all are welcome regardless of political affiliation. Workshops will be held in each city with an installation, allowing people to come together to craft as a community. Each small piece that an individual crochets becomes one part of a whole billboard, which in turn is one part of the entire project; we are each "knitted" together step by step through this work.

THE FIRST CROCHET BILLBOARDS

The project's first crochet billboards went up in New York. This was a practical choice for Olek, who lives in New York City, but it was also a symbolic choice, because the women's suffrage movement began in New York state. An

installation in Rochester celebrates Susan B. Anthony with the quote “Independence is Happiness;” another of Harriet Tubman in Auburn reads, “Slavery is the next thing to Hell.” One of the most touching moments of the project so far was when Tubman’s great-great-grandniece Pauline Copes Johnson had her photograph taken in front of the work.

The project has touched people in so many different ways, whether they have a hand in crocheting a panel for a billboard or not. The difficult-to-miss crochet murals encourage passersby to learn more about the strong females depicted on those billboards, sparking conversations about women’s issues throughout history. They might also inspire more people to crochet! Posts about each project on the Love Across the USA website provide additional information about the women featured on the panels.

GET INVOLVED!

Olek has completed many large-scale projects of her own and could certainly have stayed in her studio and made these billboards herself, but one of the primary goals of the project is collaboration. She wants community members to get hands-on with bringing attention to women’s rights, history, and influence.

Olek leads crochet workshops at the Schweinfurth Art Center in Auburn, New York, as part of Love Across the USA.

Men and boys join in at the Love Across the USA workshops to raise awareness of women’s contributions to U.S. history.

Crochet artist Olek stands in front of the Harriet Tubman mural on display at the Schweinfurth Art Center in Auburn, New York.

Love Across the USA volunteers smile beneath the Harriet Tubman mural on display at the Schweinfurth Art Center in Auburn, New York.

Each crochet billboard is supported not only by the Love Across the USA Project but also by organizations in each community that hosts a billboard. For example, the Susan B. Anthony piece was installed outside of the nonprofit yarn store Sew Green Rochester, which coordinated the effort around this particular part of the project. It took two hundred volunteers about two months to crochet the 351 two-by-two-foot panels that make up this mural, and it took another twelve hours to install the finished project, which weighs about 150 pounds. All the yarn was donated by Red Heart Yarns.

Crocheters in Colorado, Ohio, North Carolina, Virginia, and Georgia are already at work on their state’s part of the project. If you are interested in participating in those projects or getting involved in a project in your home state, find out more on the project’s website (www.loveacrosstheusa.com) or on Facebook, YouTube, or Instagram. ☺

Concentration Ratings:

LITTLE CONCENTRATION REQUIRED.

Straightforward stitching means your hands can work on autopilot.

SOME CONCENTRATION REQUIRED.

Easily memorized stitch patterns and minimal shaping might require some focus and counting.

FAIR AMOUNT OF FOCUS REQUIRED.

Involved stitch patterns, shaping, or assembly require fairly constant concentration.

EXTREME FOCUS REQUIRED.

Unusual techniques or complex stitch patterns and shaping require constant focus.

The Craft Yarn Council has set up guidelines to bring uniformity to yarn labels and published patterns.

Yarn Weight: The yarn-weight symbols that appear in "sources for supplies" are based on the system outlined above. We have consulted the yarn label, the manufacturer's website, and other resources to classify these yarns as accurately as possible. We continue to offer photos of each yarn to help you visualize the yarns used.

*Guidelines only. The above reflect the most commonly used gauges and needle or hook sizes for specific yarn categories.

Crochet Gauge

To check gauge, chain 30 to 40 stitches using recommended hook size. Work in pattern stitch until piece measures at least 4" (10 cm) from foundation chain. Lay swatch on flat surface. Place a ruler over swatch and count number of stitches across and number of rows down (including fractions of stitches and rows) in 4" (10 cm). Repeat two or three times on different areas of swatch to confirm measurements. If you have more stitches and rows than called for in instructions, use a larger hook; if you have fewer, use a smaller hook. Repeat until gauge is correct.

Look for this icon to indicate garments that include XL sizes.
