"KNIT ON WITH

CRISES."

These wise words from the late Elizabeth Zimmermann, the pioneer who revolutionized modern knitting, are more apt than ever before. As we've all experienced some form of isolation in the past year, and in many cases continue to do so, knitting has kept us creative and productive, strong and connected. For many of us the repetitive motion of stitching has been soothing, calming and stress reducing.

We hope this issue inspires you to take up a new project, one that brings immense joy, while we wait for these trying times to be behind us.

OTOGIBANASHI, which translates to fairytale in English, is how Mr. Noro describes his life. He constantly marvels that a small company founded by a country boy can sell his original products all over the world.

THE NORO STORY

UNWRAPPING A WORLD OF COLOR

EACH BALL OF NORO YARN IS A GIFT JUST WAITING TO BE OPENED, TREASURED AS A WORK OF ART ON ITS OWN AND FOR WHAT IT WILL ULTIMATELY BECOME.

Inspiration is found everywhere in Noro yarns. Take, for example, the colors. Examine a yarn like perennial favorite Kureyon and you'll see colorways with the vivid golds and greens of a sunflower patch, muted neutral palettes that mimic the infinite hues of bark, and the striking combinations of crimson, chartreuse and orange that one would see in a meadow of wildflowers. Indeed, Noro yarns are

known for their vivid hues and unique combinations of colors found in the natural world think of the red leaves of maple trees or the cerulean blue of the sky. These colors also tap into the multiplicity of shades found around us. Leaves may appear as one shade of green from afar, says Mr. Noro, "but in reality they come in countless variations of green. By mixing colors, we can create a

more natural feel reminiscent of oceans, mountains, flowers and trees." His insistence on maintaining the integrity of the dye process—taking sufficient time to apply color is crucial—creates these rich, complex hues while reducing the process's ecological impact.

Mr. Noro's reliance on natural fibers is another link to the natural world. Chockfull of wool, silk, mohair and other

MAKING NORO YARN

1 Unlike with most yarn production, the fleece is dyed prior to spinning. **2** Once dyed, the different colored fibers are lined up to be fed into the carding machine.

3 The raw fiber is fed onto the drums of the carding machine which disentangles, cleans and mixes the fibers. **4** After spinning, the yarns are twisted and wound onto bobbins.

"I was born and grew up in a place where more great unspoiled nature is left than anywhere else in Japan, so the world of nature is always close. Whether I am aware of it or not, I am inspired by nature in so many ways."

fibers drawn from animals and plants, Noro yarns have a visceral connection to the world around us. "Natural fibers have features that synthetic fibers cannot mimic, and we want these to show through as much as possible in our yarns," says Mr. Noro. Think of wool's breathability and the luster of mohair. The company's embrace of natural fibers is enhanced by the careful way that these fibers are gathered.

All animal fibers used to create Noro yarns come from certified organic farms, including producers in Australia, the Falkland Islands and South Africa—the best the world has to offer. Mr. Noro himself maintains the integrity of the production process, visiting farms, checking the type of equipment used to spin the fiber and monitoring the dyeing process.

One of the most prominent qualities of Noro yarn is its handspun, loosely processed quality. This too is an essential part of Noro's vision of creating yarns that remain true to their natural heritage. Keeping processing to a minimum and eschewing the use of harsh chemical treatments is critical to this vision. Friction created by agitation and heat during processing can weaken natural fibers; by shortening this process, Noro reduces the damage done to fibers and to the environment. Minimizing the amount of machine handling also preserves the original qualities of the fibers. The company uses only one roller on the carding machine instead of the usual three, uses a shorter bed and gently handfeeds fiber into the carder. The yarns receive less twist in the spinning process, which creates the variances in thickness. The variations and slight unevenness in

the yarns' texture are not mistakes but rather a deliberate choice so that knitters may feel closer to nature. As Mr. Noro observes, "When we make wool yarn, we use various lengths and thicknesses of the wool fiber. We want to reproduce the qualities of the sheep itself in our yarn." Indeed, this willingness to embrace the imperfections and variations is a hallmark of Noro yarns. Eisaku Noro sees this as a nod to Japanese cultural: "From ancient times, Japanese have accepted, enjoyed and been charmed by the lack of uniformity and, occasionally, the coarseness of nature. It may be the base of us as human beings and not only the basic philosophy for Noro yarns."

You can see a fresh reminder of the strong ties between Noro and the world of nature with the company's reinvented packaging. Says Jeffrey Denecke, chief operating officer of Noro's U.S. distributor, Knitting Fever: "We wanted to rebrand the yarns in a way that highlights Noro's story. Mr. Noro

was a pioneer who was way ahead of his time. When he started the company in the 1980s, he was already concerned about not overprocessing the fibers so they would keep their natural state." Denecke cites Noro's reliance on using trusted suppliers, staying intimately involved by handpicking the fibers, and carefully training his staff in his unique methods of spinning yarn and creating colorways. "The yarn," he notes, "is truly a work of art, not 'commercial' like many other products on the market today." As a result, the company's rebranding effort is meant to remind consumers of the link between Noro yarns and the natural world.

One change you'll notice is the hang tag. A switch to an ecru background lightens the label while retaining the authentic Noro logo and overall feel. The hang tags do, of course, include all the usual information—yarn name, content, yardage and other specifications—but also feature phrases that help remind knitters and crocheters of Noro's underlying philosophy, a kind of talking point for Eisaku Noro and his vision.

Another change is the beautiful black-and-white ribbon encircling the yarn. The ribbon features Japanese text, translating to "World of Nature," and is similar to a seal of Noro authenticity that needs to be broken to unwrap the yarn. By wrapping each ball of yarn "like a gift to be opened," the ribbon is a nod to the importance of presentation and wrapping in Japanese culture. In Japan, how a gift is presented is often as important as the gift itself. Carefully wrapping an item symbolizes its importance and transforms an everyday object into something special. ❖

PLANNING COLORWAYS

1 The color design team works with Mr. Noro to create a range of colorways when each new yarn is launched. **2** Colors are laid out and the ratios of each are decided. **3** Once colors are selected, a small sample of each is produced and knit, then tweaking continues until Mr. Noro considers the combinations to be perfect. **4** After spinning, yarn is balled and labeled, then packed and shipped all over the world.

THE EASY-PEASY PONCHO

New to knitting?
Or looking for a mindless
project for binge-watching?
This simple topper just
requires casting on,
knitting, and binding off,
and with a few rows
each evening, you'll be
done in no time!

NEED HELP?

If you don't live with a knitter, or you aren't able to get to your local yarn store, then take a look on YouTube. There are many excellent tutorials with clear videos and detailed explanations.

WHAT YOU WILL NEED

- 2 balls of Noro Kakigori in color #9
- Size US 10 (6mm) circular needle, 24"/60cm long or longer, OR SIZE TO OBTAIN GAUGE
 - Stitch markers
- Size D-3 (3.25mm) crochet hook

CHECK YOUR GAUGE BEFORE YOU BEGIN

Gauge means the number of stitches and rows measured over 4"/10cm. For the poncho, that is 14 stitches and 16 rows. If you don't get the correct gauge you will need to change your needle size, and keep trying until you get it right. Then you can begin!

SKILL LEVEL

BEGINNER

This is perfect for new knitters—it fits almost anyone and it requires just one simple stitch.

ABOUT KAKIGORI

50% Cotton, 30% Silk, 10% Viscose, 10% Polyamide
This super-soft colorful cotton-blend yarn is highlighted with colorful flecks which give a speckled appearance when the yarn is knit. It's really lightweight, making it perfect for warm-weather garments like this one.

Here's how to make it

FINISHED MEASUREMENTS

- Front Length 20"/51cm
- Back Length 23"/59cm
- Shoulder Width 40"/102cm

SPECIAL NOTES

- This poncho is made in one piece, beginning with the lower edge of the front and ending at the lower edge of the back.
- The back is 3"/8cm longer than the front, but you can make them the same if you would prefer.
- A circular needle is used to accommodate the large number of sts. Work back and forth, as you would on straight needles—do not join and work circularly.

FRONT

Cast on 150 sts.

Work in garter stitch (knit every row) for 20"/51cm.

SHAPE NECK

NEXT ROW (RS) K54, bind off center 42 sts, k to end. Place markers on each side of last row.

BACK

NEXT ROW (WS) K54, cast on 42 sts, k to end—150 sts.

Continue in garter stitch for 23"/58.5cm from markers. Bind off all the sts loosely knitwise.

FINISHING

Block lightly to measurements.

Measure 14"/35.5cm (or desired depth) down from the shoulder markers and tack the armholes together.

With the RS facing and crochet hook, work a row of single crochet (sc) evenly around the neck opening. Do not turn. Work backwards single crochet (from left to right) in each single crochet (sc). Fasten off. ❖

The **SWEEPING WAVES** shawl, designed by Zabeth Weiner, is knit side to side, making the most of the self-stripping colorways inherent in ENKA (just two balls are used). The design features five evenly spaced diagonal mesh patterns that sweep across the shawl. Each row begins and ends with a tidy three-stitch I-cord.

Designed by Lori Steinberg in three coastal-inspired shades of KAKIGORI, the **SHIFTING SANDS WRAP** is constructed of contrasting patterned bands. Eyelet ridges, poetic rosebuds, wrapped stitches and an allover eyelet and drop-stitch pattern are a statement in texture. Knitting begins at the lower wide edge; decreases on both sides create the shaping.

SHAWLS ALLOW
PLENTY OF
FLEXIBILITY FOR
SUBSTITUTING
YOUR FAVORITE
NORO YARN

It's really important, our editors agree, to use the yarn recommended in a pattern. You can see what the end result will look like, you know the pattern works for the gauge of the specified yarn, and you know exactly how much yarn to buy. With garments, if you get the gauge right, you know the fit should be perfect. Shawls, on the other hand, don't fit, and a good pattern can work in many yarns.

We challenged designer LORI STEINBERG to come up with a universal shawl pattern for this season. The **CORAL SUNRISE SHAWL**, worked in GESHI, is swatched in seven other yarns, giving you so many NORO color options.

GESHI

- 41% viscose/35% cotton/12% silk/12% wool
- **Finished measurements:** 38" x 70"/76cm x 178cm
- **Yarn weight:** (1)
- **Gauge:** 20 sts and 30 rows to 4"/10cm on a US6/4mm needle
- **Yarn needed:** 2 x 200g/656yd skeins

7

DESIGNER NOTEBOOK

CHOOSE YOUR FAVORITE NORO YARN (we selected the spring season yarns in a similar weight to Geshi), and we have calculated the amount of yarn, the gauge, and the finished measurements for each substitution for you. The swatches vary a little in size, which is due to the variances in the weight and gauge of each yarn.

- Each swatch shows the vine lace border pattern, as well as the sand stitch pattern that's used for the body of the shawl. The difference in gauge between a lace pattern and a knit/purl stitch pattern changes the shape of the swatch.

- The gauge given for each yarn is measured over the sand stitch pattern.

- The shawl is constructed with a provisional cast on at the widest point and decreases to a right-angled triangle. The shawl measurements are for the shorter and longer edges only.

- When making the shawl in one of these substitute yarns, you do not have to adjust the pattern. Just follow the pattern as written, and as long as your gauge is correct you'll achieve the shawl measurements listed.

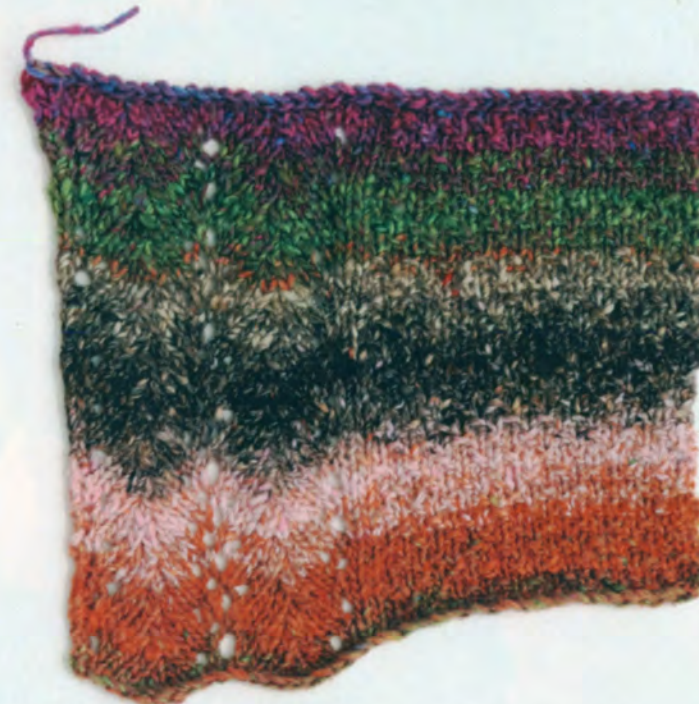

We'd love to see your results! Share your progress on social media with #norosummersawl.

CALMNESS

The versatile sweater vest is a year-round favorite. Faux cables are separated by eyelets; twisted ribs make for tidy edges. The long, slouchy shaping is punctuated by openings at the hem. Knit in a rich colorway of TSUMBAME, a beautiful silk, wool and polyamide blend.

Deep blue SONATA is the perfect choice for this oversized tee that contrasts stockinette with patches of garter stitch at the lower body. The A-line shaping is created with decreases; then increases form the drop shoulders. The sleeves are knit separately.

BECALM

Two separate fronts are edged with an eyelet pattern, then joined at the center front to create offset striping on this carefree, easy-to-wear top. Worked in ENKA, this relaxed piece features sloped shoulders, a rolled neck, and hems that are added to the lower front and armholes at finishing.

Sandi Prosser's two-tone **LEMON DROP PONCHO TOP** is the soft and easy swing tee everyone needs this season. Worked sideways in two shades of KAKIGÖRI that are simply twisted around each other, intarsia-style, each row. It would work equally well in a single colorway. DESIGNER INSPIRATION

"Constructed from side to side in one piece with subtle colorblocking, this oversized topper is perfect for layering or alone as a tee. Knitting with Noro Kakigōri to a looser gauge creates a cozy but light garment."—SANDI PROSSER

"I designed this in simple garter stripes to show off the subtle monochromatic color gradient of Noro Sonata. The garment is worked in one piece and incorporates an open-stitch sholderyoke detail to accentuate the neckline."—LAURA ZUKAITE

SUMMER SOLSTICE

Laura Zukaite's relaxed **GOLDEN MOSS** T-shaped tunic is knit in one piece, casting on and off for the sleeves and for the opening of the wide boatneck. Worked in SONATA in #18, it takes just three skeins for the smallest size. The body alternates bands of garter and stockinette; the yoke features an on-trend mesh pattern. A single row of backwards crochet worked around the neckline adds stability.

18

SUMMER SOLSTICE

The **OCEAN SUNSET CARDI**, designed by Wei Wilkins, is the perfect piece to slip on at the end of the day as the air cools. The rich colors of TSUBAME (colorway #9) unfold beautifully in this cocoon-shaped cardigan with three-quarter batwing sleeves. Curved front edges and back hemline add to the drama. The body is worked in an allover rib pattern, the sleeves contrast in simple stockinette, and garter edges finish it perfectly.

19

DESIGNER INSPIRATION

"The cocoon-style design is inspired by modernist and streamlined concepts. My choice of simple stitches and large-scale patterns lets the Tsubame yarn do all the work, with the changing colors revealing vibrant outlooks."—WEI WILKINS

SUMMER SOLSTICE

Deborah Newton's stunning **PEACH BLOSSOM** oversized pullover features ultra-modern shaping and thoughtful details. The generous sizing makes it extremely comfortable to wear. The body features an easy four-row mesh pattern, a deep V-neck, and a flattering longer, curved back. Rib sleeves are picked up and knit down. Worked in AKARI, in best-selling colorway #6.

DESIGNER INSPIRATION

"I designed this oversized pullover in an easy openwork pattern to keep the garment light and to mimic a 'thermal' fabric. The unfolding of the subtle color changes is very rewarding in the soft Akari yarn."—DEBORAH NEWTON

"I'm always fascinated with how the colors change in Noro yarns to form stripes. The simple shape makes this sweater easy to knit and fun to wear. I enjoyed making it and would love to wear it."—ROSEMARY DRYSDALE

SUMMER SOLSTICE

TUROUOISE & TANGERINE, designed by Rosemary Drysdale, is the ultimate comfy summer tee. Worked in TAIYO, color #104 features bursts of these summery shades on a more neutral background. The body is knit in an allover mistake rib that keeps the fabric flat and light. One-by-one rib sleeves are picked up and knit down to below the elbows and can easily be customized to any length.

SPRING WOODLANDS SHAWL (facing page) Colorful Akari and single-shade Sonata play off each other in this striking shawl by Kaye Adolphson. Crocheted in three pieces, it begins with working the two sides, joining them and adding the center. Backwards crochet edges finish it perfectly.

TURQUESA TOPPER (this page) Jenny King's pretty poncho top begins with two crocheted chevron lace panels. Side panels, worked in sc, are added, and then the mesh sleeves. Simple sc's border the neckline. It's worked in teal tones of Silk Garden Sock.

ROSE MATRIX SHAWL (facing page)
Two soft shades of Kumo pair perfectly in Mari Lynn Patrick's filet crochet shawl. The filled-in meshes are worked intarsia style from a chart. A pretty cluster edging finishes it all.

PACIFICA PONCHO (this page)
Rosemary Drysdale's simple textured topper is perfect for beginners. A two-row pattern is repeated over two rectangles that are simply sewn at the shoulders; the underarms are tacked. This pretty poncho takes just 2 or 3 balls of Kakigōri.

A woman with long dark hair is shown from the back, wearing a large, colorful, textured shawl. The shawl is made of a knit fabric with a mix of natural and cotton-candy shades, creating a soft, multi-colored effect. The shawl is draped over her shoulders and extends across the page. The background is a light, neutral color.

ELLEN LIGUORI

Showcasing every subtlety of Silk Garden Sock Solo, in colorway #1—a soft mélange of natural and cotton-candy shades—this L-shaped shawl's generous wingspan is formed from two rectangular panels. Each is worked lengthwise in textured lattice lace with knit-in seed-stitch borders. After the first panel is complete, the second is picked up and knit from the side edge.

JEANNIE CHIN

Simple and sweet, Chin's crew-neck pullover puts the subtle confetti-on-cream tones of Noro Silk Garden Solo colorway #1 on full display. It's knit flat in an allover bamboo texture stitch; ribbed borders add polish. The drop shoulders are joined with a three-needle bind-off. A true three-season piece thanks to the elbow-length sleeves, it easily dresses up or down.

28

LORNA MISER

Silk Garden Sock Solo lends a feather-weight feel to this swingy cropped cardigan. Knit flat and seamed, it features a charming round neckline and elbow-length sleeves. Narrow garter-stitch and single-rib borders trim the edges. The garter sawtooth hem is sideways-knit into the lower edge in finishing. Multicolor buttons accentuate the brown, blue and pink tones of creamy colorway #1.

3) To follow chart, which represents one half of shawl, work from right (dec) edge to center st, omit center st and work from center back to right edge on same row.
4) When changing colors, use separate small balls of B for each color segment in

B and carry A along. Work over the A end held along top of row (to avoid cutting A).

GAUGE

Knitting gauge—the number of stitches and rows per inch—determines the size of the garment you are making. Every knitting pattern states the gauge, or "tension," on which the sizing is based. For successful results, it is essential to test your knitting against this measurement before you start a project. Make a test swatch at least 4"/10cm square, using the yarn and needle size called for in the pattern. Then measure your swatch using a ruler or a knit gauge tool. If the number of stitches and rows does not match the pattern's gauge, you must change your needle size. An easy rule to follow is:
TO GET FEWER STITCHES TO THE INCH/CM, USE A LARGER NEEDLE;
TO GET MORE STITCHES TO THE INCH/CM, USE A SMALLER NEEDLE.
Try different needle sizes until you get the proper stitch and row gauge.

METRIC CONVERSIONS

To convert inches to centimeters, just multiply by 2.54.

Follow Your Heart

INSPIRED BY OUR BLANKET, WE BRING YOU THIS EYE-CATCHING SCARF. WHAT'S NOT TO LOVE?

NORO Heart Blanket

Designer: Bonnie Franz
Pattern available at
<https://knittingfever.com/design/16042>

IN ISSUE 5 WE PUBLISHED THE MEMORABLE HEART BLANKET. It was, unsurprisingly, a huge success. Designer Bonnie Franz used Kureyon, perhaps the most iconic Noro yarn, in three colorways. The Noro Design Team in Japan were so inspired, they used the chart to create this scarf, knit in two pieces and joined with a three-needle bind-off at the center back. Each side features three hearts, again knit in Kureyon, but in only two colors. Ribbed edges prevent rolling. ♦
