TIPS FOR DOODLES:

- Head to Your Ultimate Guide for How to Doodle Patterns for a guided walkthrough or use the FREE Doodle Workbook to get it as a PDF!

- **Don't know where to start?** Copy the sample! After choosing your chart set, recreate the sample by using the pre-made charts included in each pattern.

- **Need inspiration?** Check out the hashtags on Instagram or Ravelry project pages to see what others have done with their Doodles!

- **Ready to design your own?** Print and cut out charts to rearrange, draw your charts on graph paper or My Doodle Chart (pg. 8), or check out the Doodle Card Deck options available on www.pacificknitco.com.

- **Not sure what colors to use?** To build a cohesive palette, start with a neutral main color as a baseline, and add 2-3 gradient fades to it for contrast colors.

- **Wondering about yardage?** This pattern is the perfect stash buster: changing yarns with every chart repeat to use just 5-10g per color.

- **Worried about contrast?** Use the Black and White filter on your phone to ensure your color choices have enough variation in values between them.

- **Want your motifs to stand out?** Make sure to hold the contrast color dominant for each chart to make it pop off the background.

- **Not ready for 3-color charts?** Try using Duplicate Stitch for the third color in a row, especially if that row only has 2-3 sts in that color.

- **Questions?** We are here for you! Reach out at support@pacificknitco.com for pattern help.

(blank grid chart, 60 rounds numbered 1–60)

Are you ready to start designing your own chart?

This blank master chart enables you to **re-draw all of your selected Doodle charts in order** and with your preferred contrast/colors!

PRO TIP: Print and cut out your Doodle Charts and re-arrange on this master chart – they are the same scale so they work together!

Follow the guidelines on How to Doodle with Yarn (pg. 2). Remember, you can shift charts left or right, if necessary, add or eliminate MC rounds between charts, repeat charts, or even design your own motifs!

This chart is set up for 60 rounds of colorwork, or approx. 10 in [25 cm] height with gauge at 6 sts x 6 rounds per 1 in [2.5 cm]. Create as many charts as necessary to reach desired finished height.

Use your actual palette colors in **My Chart Key** below to better visualize your final design.
