## SKILL LEVEL

EASY

## GAUGE

Each square measure 10 x 10 cm / 4 x 4 inches.  
Make a square to test gauge.

## NOTES

### GENERAL:

- This crochet pattern is written in US terms ([more details](#)).
- Note that measurements are given as exact as possible. But crochet tension & technique might give variations in the result, that change from person to person.

### BEFORE YOU BEGIN:

- Read pattern instructions carefully before beginning to make sure you understand everything. It might save you hours!
- Make a swatch that measures at least 10 x 10 cm / 4 x 4 inches using the stitch the gauge is given for. If your swatch matches the gauge, you're good to go. If the gauge is wrong, you might need to change your hook. Go up in crochet hook size if your stitches are smaller & go down in crochet hook size if your stitches are bigger ([more details](#)).
- Check yarn info if you want to find an alternative or test your yarn against the gauge ([more details](#)).

### KNOW WHILE YOU CROCHET:

- This pattern is written for 1 size.

*\*If stitch on previous row was a ch, crochet into the ch-space.*

Fasten off & cut yarn.

# FINISHING & ASSEMBLY

1. Fasten threads & weave in ends on all squares.
2. Block them to shape.
3. When you're finished crocheting you have 50 squares. If you are making the exact same layout, place them as shown in the picture.
4. With the CD color (Grey Heather Pictured) crochet them together using slip stitches going through 2 squares at a time.

[Step by step photo tutorial on how to do this can be found here.](#)

Then follow steps on the next page.

These two photos show you how to move from two squares to the next two squares.

Do 4 rows in one direction first, then 4 rows in the opposite direction after that. See the first row finished below.

5. Finally, crochet together with single crochet stitches along all 4 edges, the 4th with the pillow inside.

Fasten threads & weave in ends.
