INSTRUCTIONS

Ensuring the best results from the yarn

In order to obtain the best results from the fantasy and multicoloured yarns, two balls of yarn should be used at the same time. If you work with one ball of yarn at a time, the combination of fibres and colours of these yarn may produce an irregular effect. By using two balls of yarn as suggested you will obtain the required effect ensuring the best results. Working with two balls of yarn is easy: use one ball to work one knitted row and one purled row (or forward and return needle and the other ball to work the next knitted row and purled row and so on.

SOME GOOD ADVICE

It is easy to take care of your knitwear if the yarn is ADRIAFIL.

Don't worry a garment worked in Adriafil yarn can be washed over and over again with no problem at all. Selected raw materials and proper workmanship guarantee excellent behaviour during washing. Simply follow the recommendations given by the symbols on the tag. Follow the instructions carefully to enjoy the beauty and softness of your work much longer

HANDWASHING

Wash in lukewarm water and a little specific detergent. Allow to soak for several minutes then dip the garment repeatedly holding by the shoulders. Rinse very thoroughly without wringing. Spread the garment out to dry. Do not hang.

MACHINE WASHING

Check that the garment can be machine washed. No pre-washing. Set on wool or pure virgin wool cycle at 40°. Use a specific detergent. Dry flat. Do not use bleach or enzymatic/biological detergents for wool and mixed wool.

IRONING

Recommended temperature is 150° using vapour of steam iron. Skimming over the garment with the vapour of the steam iron, you will also "regenerate" the fibres.

Treat stains specifically, if in doubt decide for professional treatment.
