## The entire hood is worked double stranded.

**Gauge for Hood:** Double stranded with L (8mm) hook 7 hdc =3", 3 BLO rows = 2"

**Gauge check after row 3 when count goes back to 1:** Measuring the first 3 rows (it's actually 6 rows) =4" across. Starting at last hdc made on row 1 & counting up 14sts=6".

Sc in post of last hdc made,\*2sc in next row, sc in nxt\* 6x, sc in nxt9rows, \*2sc in next row, sc in nxt\* 6x, join in 1st hdc made, yo with 2 strands Black, pull through to color change, fasten off Brown.(132)

**Rnd 18:** Ch 1, Reverse sc (crab st) in each st. (132) Fasten off, sew in ends not being used for braids or sewing.

### **Sewing triangles together: Using needle & Green strand**

Holding both triangles together & matching up the rows, sew the sides together doing 1 whip st per row (you can pull on the strand a bit to give it a nice curve). Fasten off sew in ends. You can either put a small amount of stuffing up to row 14 of the triangle or... shove the string lights inside to make it EXTRA awesome.

### **Braids: Make 2.** You can make yours the length & thickness you like. This is how I do mine.

Cut 6 strands of each color 52" (4ft 4"), fold strands in half, insert hook in the "corner" of hood going from inside to out, pull loop through a little bit, pull all strands through loop, pull tight. I separated my colors, 6 strands of each color on the left & 6 on the right, crisscross green, crisscross brown, crisscross black, knot at desired length.

### Maggots: I made 3

#### **Starting with 1 strand Color (C) & F hook (4mm)**

Ch 12, hdc in 3rd & nxt9bb. Fasten off leaving a long enough tail for sewing together & onto doll. Fold hdc sts in half with wrong side facing out, I start by going through the knot on the other side, then whip st together going through outer loops only (while you're sewing pull the strand tight, it will make your maggots curl). Don't sew in end.

### And Everyone's least favorite part,

#### Sewing pieces on & Stitches:

Start by folding your hood in half to find the center of the hood, you can either run a strand of yarn or just put a pin there.

\*Pin the bottom Black portion of eyes halfway through the 5th row up from the base & 4sts apart (the brows are almost touching when folded over), the top corner of the eye is slightly on the 9th row.

\*Pin on the mouth (you'll probably have to adjust it later, but it's so you get an idea of how it will look), there's no up or down portion of the mouth, my center tr inc is on top & halfway through the 4th row, now curve the mouth around the eyes & finish pinning.

\***Eyes:** Using a needle & the black strand of the eyes.. whip st the base of the eyes onto hood going into the top sts of hood & the outer loops of the sl sts, sew in end. When sewing the outer portion of the eyes try to get it as close as possible to outer sts you just sewed. Using the brown strands sew outer portion of eyes onto hood going into the top sts of the hood & the outer loops of the outer eyes, fasten off sew in ends.

\***Mouth:** Reposition the mouth if you need to, keep in mind the lips won't be sewn down at all so it's ok if parts are pretty close to the eyes. Using needle & brown strand.. whip st the base of the mouth onto hood going into the top sts of hood & the outer loops of sl sts (there's a lot of sts on the mouth so if you need to sk a st here & there it's okay, just don't do it too often & never sk more than 1 at a time. Fasten off, sew in ends.

**\*Mouth stitches:** I cut a long strand of #4 weight Black yarn & pulled out 1 strand (you can also use a #3 if you have it). Using the Darning needle.. Start with strand coming out the inner base of lips (it's still on the black of the mouth though), wrap around to outer base of lips & insert needle in same spot going through base of lip and through the beginning strand, pull on strand a tad to make an indent (1st st complete), insert needle along inner edge of mouth coming out where you want the next st to be & repeat the st process. Click on YouTube link for help with mouth & hood stitches. <https://youtu.be/S0QJ6F2VRkE>

**\*Hood stitches:** I cut a long strand of #4 weight Black yarn & pulled out 1 strand (you can also use a #3 if you have it). I started mine at the top knot from the braids, curved the line till I got to the triangle seam, then worked my way down the other side. Using the Darning needle & working in the top sts of the hood... Line up yarn to where you want the next st to be, insert needle through strand & coming out the length of half a st, pull through, wrap yarn around to other side the length of half a st, insert needle coming out through the yarn of the beginning st & the strand on the other side, slightly pull on it & repeat process. Click on YouTube link for help with mouth & hood stitches. <https://youtu.be/S0QJ6F2VRkE>

**\*Maggots:** I sew my maggots down in 2 places, first I whip st around the base of the end with the strand, then weave my needle to wherever a curve is touching & do a couple sts there.

#### **\*Shading:**

Using Paintbrush & Fabric Paint

After sewing on the maggots I dry brushed around them with fabric paint to dirty them up, I also did where the Brown yarn is touching the Black on the eyes & Mouth. Dip just the end of the dry paintbrush in the paint & rub it off a bit.

Whoa Hoo! Sewing & sts are done :) I hope you enjoyed making Burlap Chap.
