NOTES

Note: Sweater is worked from the top down with raglan shaping. The yoke is first worked flat to allow for front neck shaping, then work is joined and knit in the round for the remainder of the pattern until the hood. After yoke shaping, work is separated into body and sleeves. A faux seam is worked along the sides of the body and bottom of the sleeves to allow for structure. Hood is picked up and knit from neckline after construction is complete. Pocket is worked separately and sewn on.

Pattern is written in eight sizes: XS (S, M, L, XL, 2XL, 3XL, 4XL).

I-CORD DRAWSTRING

Using size US 7 (4.5mm) double pointed needles, CO 3 sts.

Slide sts to other end of needle, and without turning, K across the row. The working yarn will be pulled up the back of the work since it is now at the bottom of the sts.

Slide sts to the other end of the needle, and again without turning, K across the row. By doing this you are forming a tube called an i-cord. Continue on in this manner until the i-cord measures 50"/127cm.

Break yarn and draw through all 3 sts to complete the i-cord.

Draw ends of i-cord drawstring through eyelets at either end of facing, making sure ends are coming through to the front. Use facing bind off tail and tapestry needle to sew facing bind off to pick up row, trapping the i-cord within the tube created. Be careful not to catch the i-cord with the needle so that it can move freely within the tube. Sew ends of facing down to the 4 sts at center front.

Tie knots at the end of i-cord to prevent it from slipping back through eyelets.
