There is just something so satisfying about making neck warmers. I don't know exactly what the appeal is. Perhaps it's the chance to make something quickly. Or to try a new stitch pattern or shape. Or to have a simple mindless project. Maybe it's the fact that they are so easy to gift. Or that you really do need something special for every coat in the closet … and maybe every outfit too!

I am a huge fan of any type of neck warmer, be it a shawl, wrap, cowl, infinity cowl or scarf. And to prove the point I went and counted all of the ones that I have made over the years—the total was over 130! I kind of amazed myself when I saw that number. Now, do I still own all of those? No. Many I made for the reasons stated above, which means they didn't all end up staying in my closet. I share my love of making them with everyone I know, and I hope you will as well! CW

After a vertical 3-double crochet cluster is completed, you will chain 3; the first chain-3 forms the eye of the cluster. The next cluster is made in this "eye" (which forms the horizontal cluster). There is no chain after a completed horizontal cluster.

Scarf and hood are made in 2 identical pieces and sewn at the top and partway down the side to form hood.

SKILL LEVELS

BEGINNER
These projects are for first-time crocheters and use basic stitches (chain, single crochet, double crochet, treble crochet, slip stitches, half double crochet), with little or no shaping. Beginner projects combine basic stitches in short pattern sequences and may require identifying back and front loops of stitches, the back bar of chains, and the right and wrong side of work. Skills include simple increasing and decreasing for each basic stitch as well as skipping stitches, working multiple stitches into one stitch and simple color changes.

CONFIDENT BEGINNER
These projects use basic stitches, repetitive stitch patterns and row repeats, more technical types of color changes, and easy shaping and finishing. Simple in-the-round projects, such as coasters, hot pads, flowers, hats, neck warmers and cowls fall within the Confident Beginner skill category, as well as patterns that require the ability to read simple stitch charts and keys.

INTERMEDIATE
These projects incorporate a wide variety of stitch techniques beyond the basics, such as shells, fans, popcorns, clusters, post stitches, basic cables, lace, simple intarsia, shaping and finishing. Intermediate patterns may require the ability to read more advanced stitch pattern charts, such as lace and cable charts.

ADVANCED
These projects utilize a wide variety of stitches and techniques such as those outlined in other skill categories, as well as detailed colorwork, shaping, construction and finishing. Advanced projects may require an intuitive understanding of a pattern or chart, and also include advanced stitches and techniques, as well as intricate methods such as intarsia, cables, lace, stranded colorwork with numerous color changes, and advanced shaping and construction techniques.
