Sewing Tips

- 1、The main bodies of the dinosaurs are all the same. When sewing, for the pink dinosaur, its back should face left, and for the green and blue dinosaurs, their backs should face right.
- 2、First, thread a length of yarn at the chin area and use the invisible sewing method to sew it up. After stuffing, sew the bottom of the body invisibly.

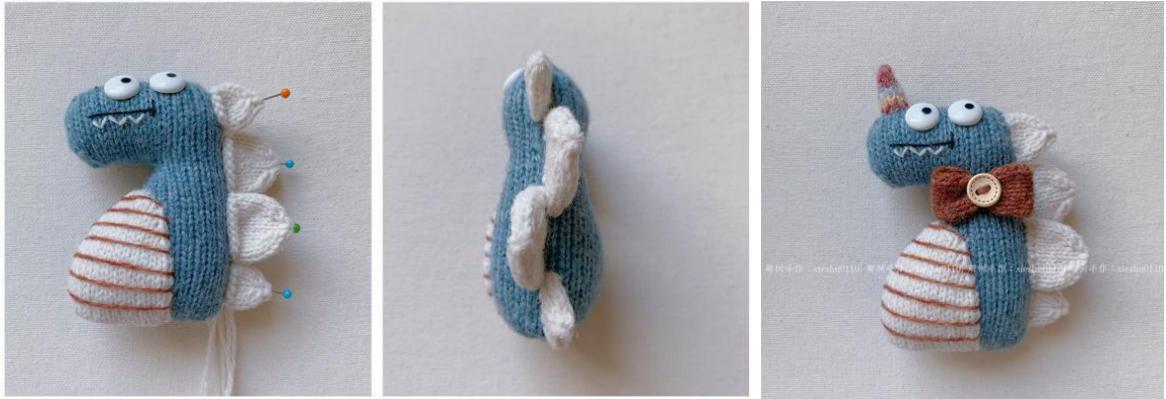

- 3、Use positioning pins to find the proper position of the belly fabric first, and then carry out invisible sewing (pick the horizontal bars of the stitches to sew at the upper and lower positions of the fabric, and pick the horizontal strands to sew at the two side positions of the fabric). Finally, embroider equidistant horizontal lines on the belly.

4、Flatten and fold the large and small wings of the dinosaur in half, then sew them up. There is no need to stuff them. They can be sewn in a misaligned way, and the positions are as follows.

Schematic diagram of seamless stitching

1 按照没有线头的下侧织片的边上针目、上侧织片的边上针目的顺序,从反面穿入毛线缝针。

2 先将针穿入下侧织片的2根线中,再按照箭头的方向穿入上侧织片的2根线中。

3 重复“穿过下侧织片的八字形的2根线,再穿过上侧织片的倒八字形的2根线”。

1. Pass the wool sewing needle through from the wrong side, following the order of the stitches on the edge of the lower knitting piece without loose ends and the stitches on the edge of the upper knitting piece.

2. First, insert the needle through the two strands of yarn in the lower knitting piece, and then insert it through the two strands of yarn in the upper knitting piece in the direction of the arrow.

3. Repeat passing through the two strands of the lower knitting piece, and then passing through the two strands of the upper knitting piece.
