# Lueur

Notes

This cosy shawl alternates varying textures for a fun experience. Going from twisted stitches to bicolour moss stitch, from bobbles to a garter tweed motif, it is a sampler of textures and colours.

Lueur is an asymmetrical triangle worked sideways. Started with a small tip and featuring garter edgings on both sides, it increases on one edge, 1 st every RS row, until the end. The four different motifs are worked twice, and the shawl ends with some garter stripes to match the edgings.

Reading the Chart
When knitting flat, read the Charts back and forth : RS rows from right to left and WS rows from left to right.

Carrying unused colours
When skipping a colour for more than 2 rows (Chart D), carry it upwards by loosely twisting the strands of CC and MC at the beginning of a RS row.

Charts and written instructions
You will find the Charts on pages 6 to 9 and written instructions on pages 10 to 14.
