Rules for mosaic crochet

- **Overlay mosaic crochet** is worked on **right side (RS) only**.
- **Each round** is made with **one color. YarnA and YarnB are alternated** in each round. Switch to next color at the end of rnd: make joining ss in back loop of first stitch with next rnd color, tighten all loops.
- **Sc (empty blocks on charts):** made in stitches from prev round through back loop only. Abbreviation *blo* (back loop only) is skipped to simplify instructions.
- **Dc, dc- increases and decreases:** drop down stitches, made in stitches from corresponding color rnd (2nd rnd down) and through front loop only. Abbreviation *flo* (front loop only) is skipped to simplify instructions.
- **1st st of each mosaic rnd: sc** is made in back loop of pr st, **dc** is made in front loop of st from corresponding color rnd (2nd rnd down).
- **Last ss of each mosaic rnd** is made with next rnd color in back loop of 1st st.
- Use **invisible join technique** for rounds that start and end with dc (Videos section).

Bag body

Charts:

Chart 2 on p. 19, **Charts 2.1 – 2.4** on p. 20 - 23 (Chart 2 is divided into 4 parts for better quality printing. 4 prints can be glued together). Charts show only front side of the bag body. Back side is made with *tile* stitch (see special abbreviations below).

- Start Rnds 1-53 with Chart 2.1, continue each round with Chart 2.2.
- Start Rnds 54-108 with Chart 2.3, continue each round with Chart 2.4.
- The non-centered leaf position on the bag front accounts for the slight shift of invisible join line/side seam to the back of the bag caused by mosaic crochet bias - approx 2cm/ 3⁄4" by Rnd 108 - and results in a well-balanced look of the finished bag.

Notes:

- Continue working in mosaic crochet according to all rules explained on p. 4.
- **FPdc:** when you make front post double crochet (to form midrib or leaf veins), make sure it doesn't contract you work and stitch is at the same level as other stitches in that row.
  Otherwise, make it longer or replace with FPedc (extended front post dc).

Special abbreviations:

- *tile*: sc, 3 dc.
- **edc:** extended double crochet. **Video:** https://youtu.be/NGPuRU6Eljo (3:21 time mark)
- **Increasing stitches/ inc:** st-st-inc (make 2 or more different sts in the same stitch).
- **Decreasing stitches/ dec:** st-st-tog (make 2 different sts together).
- **A-st, B-st:** stitch made with YarnA or YarnB.
- **Behind st:** above starting point of slanted

st.

- To simplify instructions, increasing, decreasing and front post stitches are sometimes referred to as **inc**, **dec**, and **FP**.
- **Leg(s):** parts of decreasing sts. For example, **dc2tog** has 2 dc-legs.

Go to lining and handles instructions on p. 24.

Care

Hand-wash bag in lukewarm water with a bit of mild detergent, rinse, use a towel to squeeze out excess moisture, lay flat to dry.

Lining

Soften bag by stretching it gently in all directions, imitating wear before measuring.

1) Measure and cut fabric for lining. Lay your bag on a flat surface with upper edge backing folded in. Measure the bag:

Height: from the middle of the bottom (make sure entire half of the bottom is visible) to the top of upper edge (40cm/ 15 ¾"). Add 2cm/ ¾" for adjustment and 2cm/ ¾" seam allowance (44cm/ 17 3/8").

Width: stretch it slightly width-wise while measuring, multiply x2 (75cm/ 29 ½"), add 4cm/ 1 ½" seam allowance (79cm/ 31").

Cut fabric to the measurements: 44 x 79cm/ 17 3/8 x 31".

2) Side seam. Fold your fabric into half width-wise with RS together, stitch side seam with 2cm/ ¾" seam allowance. Insert lining in, stretch the bag width-wise to check if it fits, re-do the side seam if necessary.

3) When lining fits the bag, overcast separately, press open. Fold the lining so the side seam is located in the middle of one side.

4) Bottom seam. Overcast bottom edge. With side seam in the middle of one side, stitch bottom seam with 2 cm/ ¾" seam allowance. Press open. Flatten the bottom corners of the lining to form triangles and pin to secure.

corner seams

5) Bottom corner seams. Mark and stitch 7.5cm/ 3" long corner seams, which is 0.5cm/ 1/8" shorter than the bottom width.

6) Fold inwards and hand-stitch to the bottom with whip stitch. Hand-stitch bottom seam allowances to the bag.

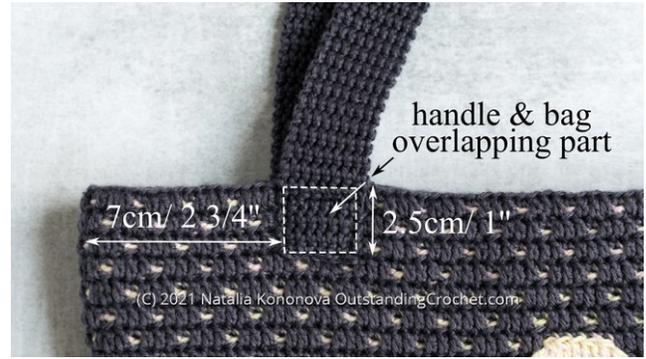

7)

9) Upper edge seam, backing seam. Magnet clasp. Insert finished lining in. Align the side seam of lining with the middle of the back by folding the bag rather than counting stitches, because invisible join "seam" shifts for about 2cm/ ¾" towards the back of the bag by Rnd 108, baste or pin. Align upper edges of lining and bag, baste or pin.

8) Upper edge. Insert lining in with side seam at the back of the bag. Align the upper edge of the lining with the upper edge of the bag not the backing. Check that the height of the lining matches the height of the bag (without the backing). Make adjustments to the lining by trimming off excess fabric from its upper edge. If the end of the side seam comes undone after trimming, secure it with a few stitches. Overcast upper edge.

10) With RS of the bag facing, hand-stitch lining to the bag with back-stitch using YarnA matching thread.

Video for upper edge seam:
https://youtu.be/n-3v9gtWlZc

11) Work very close to the upper edge of the lining and along the top edge of the bag, making tiny invisible stitches on RS, constantly checking for even folding of the backing over the lining.

12) Fold backing over the lining and hand-stitch backing edge to the lining with whip stitch, starting from the bag side. Stitch magnet clasp parts to the backing.

13)

Handles (x2)

- **Make handles.** Start with 8 sts foundation cord. Work in thermal stitch to about 67cm/ 26 3/8" length when stretched to a full capacity. **Video:** https://youtu.be/wfZuxby-m-c

- **Sew handles to the bag.** Weave in ends. Stretch handles, including tips. Fold the bag to find sides. Do not use invisible join "seam" to determine the bag side. It shifts to the back side of the bag due mosaic stitch bias. Pin both handles to the bag about 7cm/ 2 ¾" from the bag sides, overlapping upper edge for about 2.5cm/ 1". Make sure handles are aligned when the bag is folded flat. Using YarnA matching thread, sew handles to the bag with back stitch. Work through the bag, lining, and backing around the perimeter of the handle and bag overlapping part.
