

Narciso

Among the many traditions my paternal grandmother cherished, her love for Andalusian flowers stood out. One of her favourites was the narciso, not only for its abundant pink blooms that grew everywhere in our home but also because it was the name of her father. This flower symbolises a central figure in her life, her father, who raised her after her mother's untimely death during childbirth. This pattern is a homage to her enduring legacy.

This cardigan is worked seamlessly from the top down. First, the back is cast on, short rows are worked to shape shoulders, and the back is worked to underarms. The fronts are picked up from the back and the shoulders and neckline are shaped. The fronts and back are then joined and the body is worked in the round. Sleeves are picked up around the armholes with the caps being shaped with short rows, and are then worked in the round. A crochet scallop edging is added after knitting.
