SCALES

Insert white thread into a needle.
Embroider white scales in Rococo stitch
(also known as Queen stitch).

ROCOCO STITCH EMBROIDERY

To get a Rococo spiral wind the thread around the end
of the needle coming out of the fabric 10-15 times
(the more wraps, the better the spiral looks). Then pull
the needle through the spiral and enter the stitch base.
The shape of the spiral depends on the point you enter:
the closer the first point to the second one, the more
curved is the spiral. The needle should be thin and long.
If it does not go through the wraps, you need to twist it
in your fingers - this will loosen the wraps, and the
needle will pass easily.
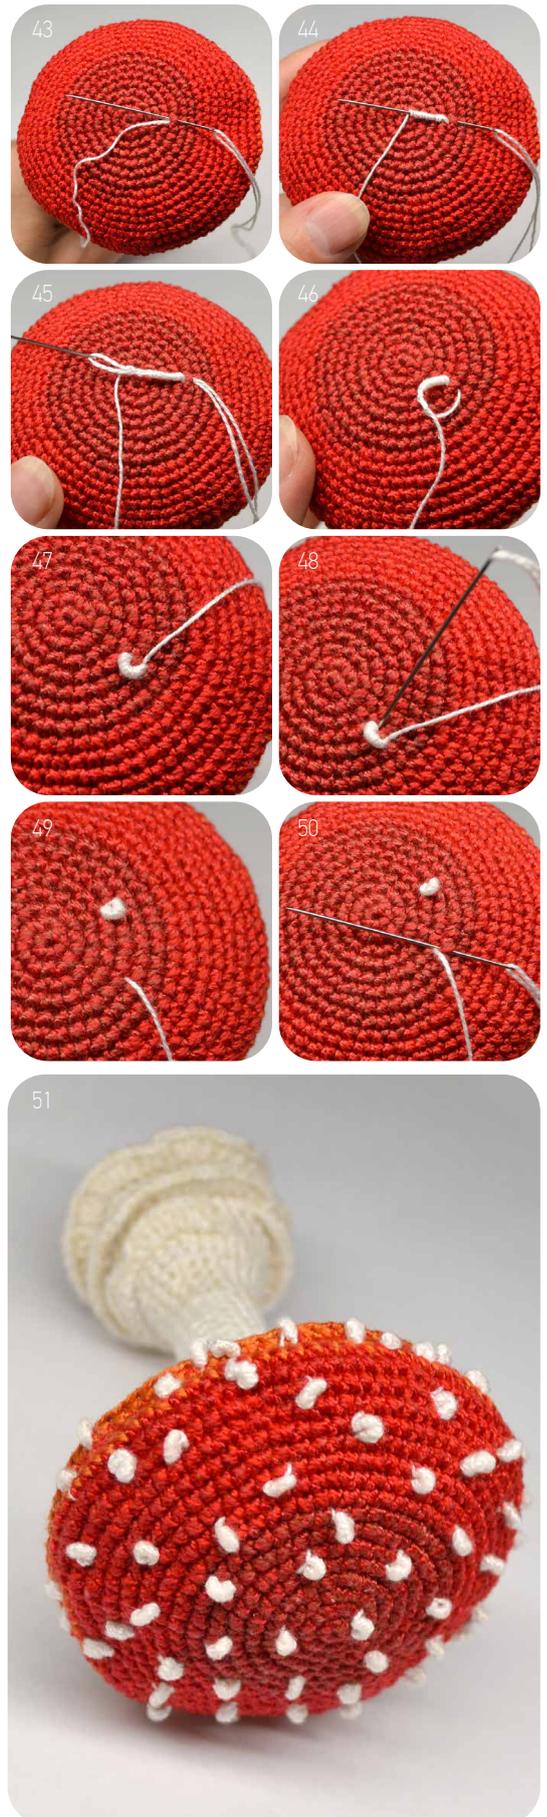

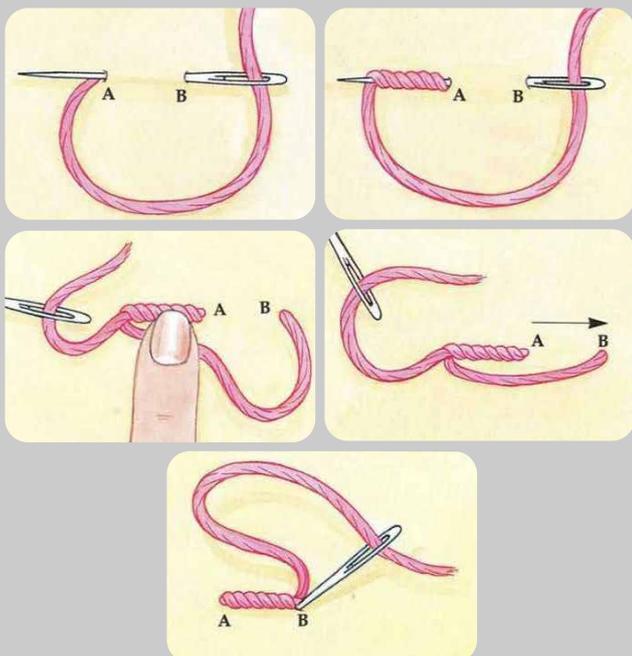

Two types of fly agaric

YarnArt Iris (20g/138m)
2 strands
Hook 1,5 mm

Pehorka Openwork (50g/280m) 1 strand
*Alize Softy 1 strand
Hook 1 mm

* Use 1 strand of Alize Softy for annulus and scales. Use 1 mm hook.
Crochet round each annulus in sc using **Alize Softy** (you can work sc skipping 1 st, for the yarn is quite thick).
Embroider the scales with Alize Softy as well. Sew on beads in the end.

Fly Agaric is ready

Mushrooms are ready!

I hope you did it!
