THRU LINES

——— DETAILS ———

I played around with the shape and style of this scarf for almost a whole year! I am so happy with where it landed, and I hope you love it, too. Knit sideways with lots of texture and a splash of color, it is effortless to wear as the perfect final layer before heading out!

GAUGE

24 sts & 36 rows = 4"/10 cm
Measured over stitch pattern (pg. 4), after blocking.

o This scarf is knit sideways, increasing up to the widest part of the triangle and then decreasing back down.

o The entirety of the scarf is encased in an I-cord edge.

o Want to adjust the sizing? Simply continue the "Increasing Pattern Repeat" until the scarf measures half of your ideal length, ending with Row 16 of the pattern repeat, then cont with the pattern as written, working the "Decreasing Pattern Repeat" section until you reduce back down to 13 sts. Easy peasy! Just note that this will affect how much yarn you need.

o I chose to carry my yarns up the edge of the scarf instead of breaking them: https://youtu.be/pgn2b7UaPSg

o The edges of the scarf will curl in while knitting, but I found they lay quite nice after blocking the scarf.

o Tutorial for grafting two I-cords together using the Kitchener Stitch: https://youtu.be/WWKUGQcmpiU

o Right Lifted Increase (RLI) Tutorial: https://youtu.be/JU_xnpgvC0c

o I am a firm believer that a little blocking will make all of your knits look better! Soak your scarf in lukewarm water with your favorite wool wash for 15 minutes. Squeeze out the excess moisture with a towel and lay flat to dry in the desired shape!

FINISHING

Rearrange the 3 sts remaining on the LHN by pinching at their base and sliding the needle out, then reinserting the needle from the other side, so they are now in reverse order. You now have 3 sts from each I-cord edge facing each other so that the purl sts are tucked in towards each other, and the knit sts remain on the outside. Cut yarn, leaving a 10"/25.5 cm tail. Using Kitchener Stitch, graft the remaining 6 sts together. You can find a video tutorial to help with this method here:
https://youtu.be/WWKUGQcmpiU

Weave in your ends.

Wet block your scarf by soaking it in lukewarm water with your favorite wool wash for 15 minutes. Squeeze out the excess moisture with a towel and lay flat to dry using pins if desired to help flatten the edges. Trim ends and wear!
