Tips before starting:

The front part of the bag is crocheted in the Intarsia crochet technique. If you did not crochet in this technique before, watch the YouTube video. You can find different videos on YouTube if needed.

- The front and back parts of the bag are crocheted in single crochet. Each square in the pattern indicates one single crochet.
- The front part of the bag is crocheted according to the pattern from bottom to top (see the chart below). The first row is crocheted from right to left.
- Crochet the front and back parts of the bag in back and forth rows (turn as you complete each row).
- Begin each new row with a turning chain.

You can use bobbins (or a piece of cardboard to wrap the yarn around) for crocheting the colored blocks. Add more yarn once the yarn on the bobbin is finished. You can use as many bobbins as you like. Before starting work, you should have ready bobbins in pearl and rose colors.

Try not to pull the yarn too tight when changing colors, but also do not let it be too loose so that there are no gaps.

Below you can find a small excerpt of the chart on how to change the colors on the front and wrong sides.

- R** Right Side - NO tails on this side
- W** Wrong Side - Keep ALL tails on this side while crocheting

Hide all yarn tails on the wrong side with the help of the needle.

Start crocheting the front side of the bag. Chain 85 with **white yarn**. Start working in the second chain from the hook as follows in the chart below.

After the end of each row turn and ch 1. The ch 1 does not count as a stitch.
