## **Rules for overlay mosaic crochet**

- **Overlay mosaic crochet** is worked on **right side (RS) only**.
- **Each round** is made with **one color. Yarn1 and Yarn2 are alternated** in each round. Switch to next color at the end of rnd: make joining ss in back loop of first stitch with next rnd color, tighten both working ends.
- **Sc (colored blocks on charts):** made in stitches from prev round through back loop only. First sc of round is made in back lp of 1<sup>st</sup> st from pr. Abbreviation *blo* (back loop only) is skipped to simplify instructions.
- **Dc, dc- increases and decreases:** drop down stitches, made in stitches from corresponding color rnd (2<sup>nd</sup> rnd down) and through front loop only. First dc of round is made in front lp of 1<sup>st</sup> st from 2<sup>nd</sup> rnd down/ same color rnd. Abbreviation *flo* (front loop only) is skipped to simplify instructions.
- Use **invisible join technique** for rounds that start and end with dc: make last dc in 2 stitches at the same time: in last and first dc of second round down (idea: Linda Toering) or make 2 dc together in the same stitches (idea: Marlena Cieciora-Szyda).

## Mosaic crochet gauge instructions

### Foundation cord:

<https://youtu.be/D2qUB8t4uc8>

Swatch is made with one color and in turning rows to avoid breaking yarn.

**Row 1 (RS):** with Yarn1 or Yarn2 make 31sts of fnd cord, turn, ch1 (doesn't count as st throughout), 31sc, turn.

**Row 2 (WS):** ch1, sc in same st (in both lps; = *border sc*), 29sc flo (front lp only) in pr, sc in last st (in both lps; = *border sc*), turn.

**Row 3 (RS):** ch1, sc in same st (in both lps; = *border sc*), 29dc flo (front lp only) in 2<sup>nd</sup> row down, sc in last st (in both lps; = *border sc*), turn.

**Rows 4-31:** rep Rows 2 and 3.

### Charts:

**Chart 1** (front) on p. 28.

**Chart 2** (back) on p. 29.

**Chart key** on p. 27.

*Prepare yarn (if using the same colors as prototypes):*

**1) You'll need 1 Whirl and 1 Whirlette (in light color that matches the lighter end of Whirl):**

- Divide Whirl into two portions: light and dark.
- Wind each part into a ball, starting from the darkest end. Both colors will get darker towards the top of the bag or pillow.
- **Yarn1:** Use the darker portion of the Whirl. Weigh it before you begin and make sure you have enough (120g is required, but make sure to have 10g more).
- **Yarn2:** Start with the Whirlette for the first 15 rounds. After completing 15 rounds, calculate the total amount needed (instructions are given after Rnd 15), then switch to the lighter portion of the Whirl. Save the remaining Whirlette for whiskers, light reflection in the right eye, upper edge backing, and handles.

**2) If you're using a different yarn:**

- Before you start, set aside 5g/ 23m/ 25yds

of the lightest color for making whiskers and 1m/ 1.1yds for the light reflection in the right eye.

**Check if you need to use Whirlette for more rounds before switching to Whirl:**

- Weigh Whirlette again and subtract the amount from the initial weight (100g – 86g = ~14g).

- Multiply the obtained amount by 7 (14g x 7 = 98g) and add the adjustment (5g). This gives you a total of Yarn1 needed for the mosaic section: 98g + 5g = 103g.
- Subtract the amount you've already used: 103g - 14g = 89g.
- If you have 89g of the Whirl yarn in the light color, switch to Whirl as Yarn2. If not, continue using Whirllette for a few more rounds. Each Yarn2-round will require approximately 1.75g (14g / 8 rounds).

## Whiskers

**Pictures 1-4** on next page.

**Yarn usage:** approximately 5g.

**Video:** <https://youtu.be/xCzww9d5u3k>

- Place a plastic folder or a magazine inside the bag or pillow to prevent catching the other side with a needle.
- Whiskers are made using the outline embroidery stitch. Refer to pictures 1-4 on the next page to mark the whiskers with tailor's chalk and determine the yarn piece length for each whisker.
- To make a seam, insert the needle 2cm<sup>3/4</sup>" from the seam starting point and emerge back to the right side (RS) at the seam beginning point. Draw the yarn through and leave a 15cm/6" tail. Make the seam following the provided video.
- Finish the seam by inserting the needle at the needle point at the end of the seam and emerging it back to the RS, 2cm<sup>3/4</sup>" from the last needle point. Cut the yarn, leaving a 15cm/6" tail. Repeat this process for all

the whiskers in the group.

- Turn the bag inside out, draw all the tails to the wrong side (WS), tie them off, and weave them in.
- Repeat the above steps for another group of whiskers.

## Finishing pillow

### *Handles (x2):*

### Video for thermal stitch:

<https://youtu.be/wfZuxby-m-c>

**Handles length:** handles length is given for size Small, height 168cm/ 5' 6". To customize handle length, place measuring tape across recipient's shoulder and determine a comfortable length from one slit to another on the same side.

**Handle (x2):** with 2.75mm hook make 10sts foundation cord, work in thermal stitch for 220 rows/ 67cm/ 26 3/8" (stretched to a full capacity).

Go to lining and handles attaching instructions on p. 30.

## Care

Hand-wash in lukewarm water with a bit of mild detergent, rinse, use a towel to squeeze out excess moisture, lay flat to dry.

Numbers show yarn piece length to make each whisker.

60cm = 23 5/8", 65cm = 25 5/8", 70cm = 27 5/8",

## Lining

### Pre-quilted fabric lining:

- If you made a bag bottom, replace steps 1-4 with Steps 1b-9b on p. 31.
- If you use fabric + sew-in ultra firm stabilizer, go to p. 33.

#### 1) Measure and cut pre-quilted fabric for lining.

Soften bag by stretching it gently in all directions; lay flat on an even surface.

Measure bag height and width:

Bag Height (H): from the bottom to the upper edge not backing (=37cm/ 14 1/2").

Bag width (W): (=37cm/ 14 1/2").

#### Calculate lining measurements:

**Lining Height** = bag H + 2cm/ 3/4" (for adjustments) + 2.5cm/ 1" (for SA/ seam allowance) =

37cm + 2cm + 2.5cm = **41.5cm/ 16 3/8"**.

**Lining Width (one piece)** = bag W x 2 - 1cm/ 3/8" (for adjustment) + 4cm/ 1 1/2" (for SA) =

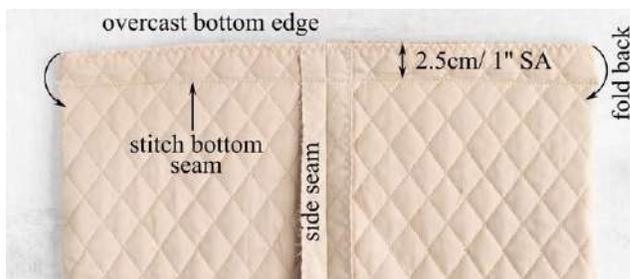

37cm x 2 - 1cm + 4cm = **77cm/ 30 3/8"**.

Cut fabric to the measurements (one piece):

**41.5cm x 77cm/ 16 3/8" x 30 3/8"**.

**2) Center seam.** Overcast bottom edge. Fold your fabric into half width-wise RS together, stitch center seam with 2cm/ 3/4" SA. Insert lining in, stretch the bag width-wise to check if it fits, re-do the center seam if necessary. When lining fits the bag, overcast side SA's separately, press open.

**3) Bottom seam.** With lining folded so that center seam is in the middle of one side, stitch bottom seam with 2.5cm/ 1" SA.

**4) Fold back bottom SA towards lining and hand-stitch to the lining with whip stitch.** Make sure not to catch other side with your needle. Continue to Step 5 on p. 35.

## Bag with a bottom and pre-quilted fabric lining:

### 1b) Measure and cut fabric for lining.

Soften bag by stretching it gently in all directions; lay flat on an even surface.  
Measure bag height and width:  
Bag Height (H): from the middle of the bottom to the upper edge not backing: 41cm/ 16 1/8".  
Bag width (W): (=37cm/ 14 1/2").

### Calculate lining measurements:

**Lining Height** = bag H + 2cm/ 3/4" (for adjustments) + 2.5cm/ 1" (for SA/ seam allowance) =  
41cm + 2cm + 2.5cm = **45.5cm/ 18"**.

**Lining Width:** bag W x 2 - 1cm/ 3/8" (for adjustment) + 4cm/ 1 1/2" (for SA) =  
37cm x 2 - 1cm + 4cm = **77cm/ 30 3/8"**.

Cut fabric to the measurements:

**45.5cm x 77cm/ 18" x 30 3/8"**.

**2b) Center seam.** Overcast bottom edge. Fold your fabric into half width-wise RS together, stitch center seam with 2cm/ 3/4" SA. Insert lining in, stretch the bag width-wise to check if it fits, re-do the center seam if necessary.

**3b) When lining fits the bag, overcast center seam SA's separately, press open. Fold the lining so the center seam is located in the middle of one side.**

**4b) Bottom seam.** With center seam in the middle of one side, stitch bottom seam with 2 cm/  $\frac{3}{4}$ " SA. Press open. Flatten the bottom corners of the lining to form triangles and pin to secure.

**7b) Optional bottom reinforcement.** Measure lining bottom. Cut plastic canvas to the bottom size minus 1.5cm/  $\frac{5}{8}$ " each side. Trim corners.

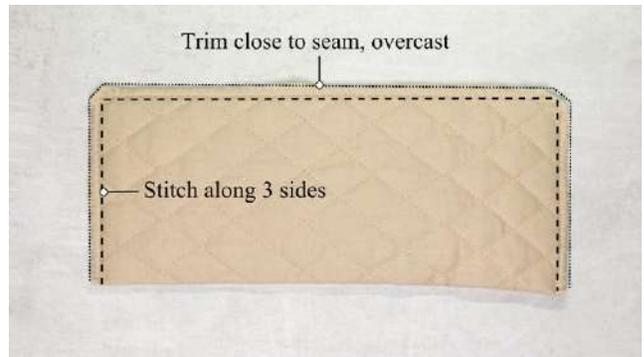

**5b) Bottom corner seams.** Seam length: bag bottom width (measured after completion) – 1.5cm = 8cm – 1.5cm = 6.5cm/  $3\frac{1}{8}$ " –  $\frac{5}{8}$ " = 2  $\frac{1}{2}$ ". Mark and stitch 6.5cm/ 2  $\frac{1}{2}$ " corner seams.

**8b)** Cut a piece of quilted fabric with 1cm/  $\frac{3}{8}$ " SA on 3 sides to be folded in half and cover plastic canvas on both sides. Wrap plastic canvas in fabric, align edges, pin or baste along 3 sides.

**6b)** Fold corners inwards and sew with a whip stitch to the bottom. Sew the bottom seam allowances to the bag. If not reinforcing the bottom, continue to Step 5 on p. 35.

**9b)** With canvas inside, make a seam along 3 sides. Trim SA close to the seam (0.5cm/  $\frac{3}{16}$ "), overcast raw edges. Place bottom reinforcement piece inside lining. Continue to Step 5 on p. 35.

*Alternatively: cotton fabric + sew-in ultra firm stabilizer (steps 1v-9v on pages 31-32):*

**1v) Measure and cut fabric for lining.**

Soften bag by stretching it gently in all directions; lay flat on an even surface.  
 Measure bag height and width:  
 Bag Height (H): from the bottom to the upper edge not backing (=37cm/ 14 1/2").  
 Bag width (W): (=37cm/ 14 1/2").  
 Calculate lining measurements:  
**Lining Height** = bag H + 2cm/ 3/4" (for adjustments) + 2.5cm/ 1" (for SA/ seam allowance) =

$$37\text{cm} + 2\text{cm} + 2.5\text{cm} = \mathbf{41.5\text{cm} / 14 \frac{1}{2}'' + \frac{3}{4}'' + 1'' = 16 \frac{3}{8}''.$$

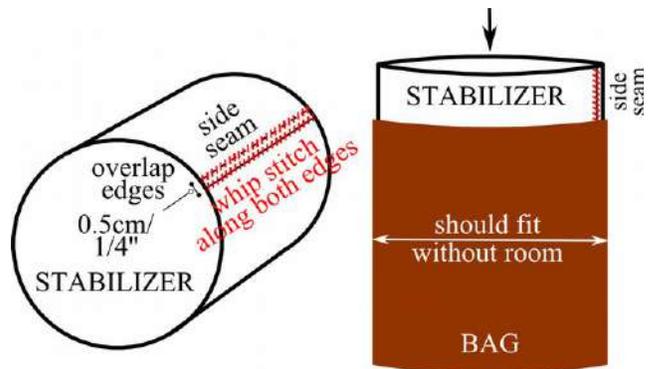

**Lining Width** = bag W x2 - 3cm/ 1 1/8" (for adjustment) + 4cm/ 1 1/2" (for SA) =  
 $37\text{cm} \times 2 - 3\text{cm} + 4\text{cm} = \mathbf{75\text{cm} / 14 \frac{1}{2}'' \times 2 - \frac{1}{8}'' + 1 \frac{1}{2}'' = 29 \frac{1}{2}''.$

Cut fabric to the measurements:  
**41.5cm x 75cm / 16 3/8" x 29 1/2".**

**2v) Calculate measurements and cut stabilizer.**

**Stabilizer Height:** bag H + 2cm/ 3/4" (for adjustments)  
 $37\text{cm} + 2\text{cm} = \mathbf{39\text{cm} / 14 \frac{1}{2}'' + \frac{3}{4}'' = 15 \frac{3}{8}''.$   
**Stabilizer Width:** bag W x2 - 1cm/ 3/8" (for adjustment) + 1cm/ 3/8" (for SA)  
 $37\text{cm} \times 2 - 1\text{cm} + 1\text{cm} = \mathbf{74\text{cm} / 14 \frac{1}{2}'' \times 2 - \frac{3}{8}'' + \frac{3}{8}'' = 29 \frac{1}{8}''.$

**Cut stabilizer to the measurements:**  
**39cm x 74cm / 15 3/8" x 29 1/8"**

**3v) Stabilizer side seam.** Roll stabilizer into a tube, overlap edges by 0.5cm/ 1/4", pin together. Fold flat with the side seam on a side, insert in the bag and check if it fits. Adjust overlapping, if necessary, until stabilizer snugly fits inside the bag and stitch edges together by hand with whip stitch along both overlapping edges (inside and outside) so the seam is flat and edges are not sticking out. Do not make the seam for 2cm/ 3/4" from the from the upper edge because you will trim it in Step 5.

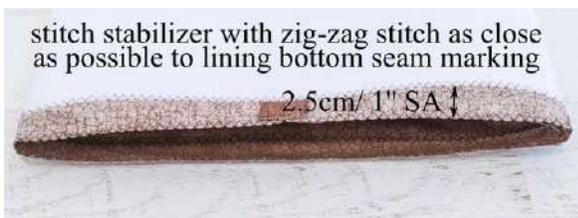

**4v) Lining side seam.** Overcast bottom edge. Fold your fabric into half width-wise RS together, stitch side seam with 2cm/ 3/4" SA. Insert lining in stabilizer, check if it fits, re-do the side seam if necessary. When lining fits the stabilizer, overcast side SA's separately, press open. Fold lining with the side seam in the middle of back side, press sides.

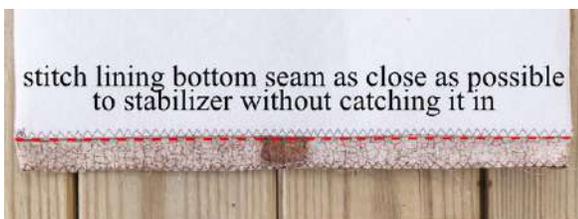

**5v) Stitch stabilizer to the lining bottom.**

On WS of lining, mark bottom seam with 2.5cm/ 1" SA, insert lining inside stabilizer, align one of the lining pressed side with stabilizer side seam, align stabilizer bottom edge with bottom seam marking on the lining, pin together around maintaining 2.5cm/1" bottom SA.

**6v) Stitch stabilizer bottom edge to the lining with zig-zag stitch around the bottom as close as possible to stabilizer edge and lining bottom seam marking.**

**7v) Make lining bottom seam as close as possible to the stabilizer edge without catching it in the seam.**

**8v) Fold lining bottom SA up and hand-stitch to the stabilizer with whip stitch. To prevent catching lining inside the stabilizer with your needle, place a plastic folder between the stabilizer and lining.**

**9v) Pin lining and stabilizer upper edges together and follow instruction on next page from Step 5, but skip Steps 7-8.**

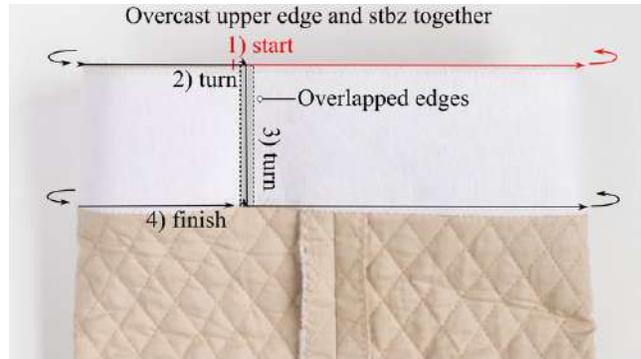

*All options (conjoint instructions):*

**5) Cutting lining to size.** Insert lining into the bag to check that the height of the lining matches the height of the bag WITHOUT backing. Make adjustments to the lining by trimming off excess fabric from its upper edge (usually 1cm/  $\frac{3}{8}$ " ). The end of the center seam will come undone after trimming. Secure center seam(s) with a few stitches. Finish stabilizer side seam all the way to the upper edge. Pin and overcast lining and stabilizer upper edges together.

**6)** The upper edge of the lining should end just under the upper edge of the bag so later on backing could effortlessly get folded back over the lining.

**7) Reinforce upper edge with buckram/ stabilizer (later in the pattern: stbz).** Place 9cm/ 3  $\frac{1}{2}$ " buckram (stiff but thin backing) or stabilizer (2mm thick very stiff backing) strip around the upper edge of the lining WS. Align upper edges, baste or pin together. Overlap strip edges by  $\sim 2$ cm/  $\frac{3}{4}$ " , make sure overlapping line does not align with center seam.

**8)** Hand-stitch side SA to the lining. Make sure not to catch other side with your needle.

**9) Handles.** Insert lining in with the center seam at the back of the bag. Align sides of the lining and the bag, fold backing in, pin 3 layers together (bag, lining, backing) at both sides first, then along front and back sides except slit areas.

**12) Repeat for another end, make sure handle is not twisted.**

Repeat for the other side.

**10) Stretch handle.** Insert one end into the slit from RS between lining and backing.

**13) Unpin upper edge,** pull the bag away from the lining upper edge. Check if handles are aligned and are at the same distance from the sides. If not, repeat previous step.

**11) Fold backing over to make sure it fully covers the end. Pin handle end to the lining.**

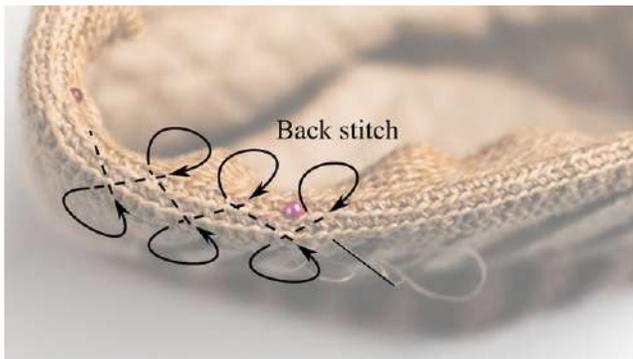

**14) Baste, check handles alignment, and securely stitch handle ends to the lining along the overlapping perimeters. Start each seam at the upper edge to avoid handle shifting away from the slit. Remove basting stitches and trim off all loose threads at the upper edge.**

**15) Upper edge seam.** Align bag and lining sides, pin together. Align bag and lining upper edges. Fold backing in, pin 3 layers (bag, lining, backing) together along front and back sides.

**17) Backing seam.** Hand-stitch backing to the lining with whip stitch.

**16)** With RS of the bag facing, hand-stitch the bag to the lining with back-stitch, inserting needle through all 3 layers. When you reach handle slits, work through 4 layers (bag, lining, handle, and backing) to close the openings. Work very close to the upper edge of the lining and along the top edge of the bag.

**18) Magnet clasp.** Stitch magnet clasp parts in the middle of the backing. Make sure to stitch them to the lining through backing.
