Notions

Stitch markers, removable markers, stitch holder or scrap yarn, tapestry needle.

Hatsuki is a sleeveless summer sweater in relaxed size. Knitting top down, begin from each front shoulder and join the pieces, then start the Leaf pattern at the fixed position, following the chart to the underarms. Next pick up stitches from the shoulder cast-on edge to knit each left and right back and join the pieces, continue to work the back to the underarms (the back body does not have a leaf pattern), and finally join the back parts to the front to start round knitting. The leaf pattern in the front body is gradually expanded after one repeat of the pattern (20 rows). In this pattern, the total length is intentionally cropped, but it can be extended as desired. The yarn made of cotton or linen will have heavier weight in the finished garment, so it is more likely to extend in length at the finishing. It is recommended to knit cropped first to determine the preferred lightness.
