Sunflower Beanie

Pattern by Lindsey Faciane of The Chesapeake Needle

There is nothing more exciting than the anticipation of autumn. Feeling the first hints of crispness in the air, watching the leaves turn crimson and gold, and tasting the warm flavor of a pumpkin spice latte are some of my favorite small joys each year. But of course, fall wouldn't be complete without sunflowers! I designed this simple, slouchy colorwork beanie several years ago to commemorate the upcoming arrival of everyone's favorite season, and I'm just now getting around to sharing the pattern. Better late than never, I suppose. :)

The yarn I used for this pattern is [Stitch Please Chunky by Premier Yarns](#). I've tried so many wool yarns over the years, and they're often scratchy and uncomfortable to wear. Not this one! It's 100% wool, yet it feels soft and luxurious to the touch, and it comes in so many beautiful colors to choose from! The best part is that it's extremely affordable to fit any budget. Give it a try, you'll love it!

You are more than welcome to sell anything you make using this pattern; I just ask that you credit me as the designer and include the link to the pattern on Ravelry. You may not claim this pattern as your own, and you may not sell or distribute its contents in any form. If you have any questions, you can reach me at thechesapeakeneedle@gmail.com. Materials

- Approximately 95 yards (87 m) of C1, 25 yards (23 m) of C2, and 12 yards (11 m) of C3 in a bulky weight (5) yarn. I used [Stitch Please Chunky by Premier Yarns](#) in "Rust in the Wind" for C1, "Salted Caramel" for C2, and "Espresso Yourself" for C3. One thing to note is Stitch Please Chunky is on the lighter side of bulky weight, so you will want to make a gauge swatch to ensure your beanie will fit.
- US size 10 (6mm) 16" circular knitting needles
- US size 10 (6mm) double-pointed needles (optional)
- Faux fur pom pom (optional) – I get mine from BrennaAnnHandmade on Etsy!
- Common notions, such as stitch markers, measuring tape, yarn needle, and scissors

Measurements

S/M: Approximately 9" tall and 20" around. Due to the colorwork floats on the inside of this beanie, it's not very stretchy, so make sure to measure your head and make the appropriate size. As a guide, I have a 22" head circumference and wear Size S/M, which fits snugly around the colorwork portion and slouches at the top.

L/XL: Approximately 9" tall and 22.5" around.

Gauge

18 sts x 21 rows = 4" in stockinette stitch

Abbreviations

| | |
|----------|---|
| St(s) | stitch(es) |
| C1 (2,3) | color 1 (2,3) |
| K | knit |
| P | purl |
| K2tog | knit the next 2 stitches together as 1 stitch |

Notes

- ~ Please note that the difference between the sizes is the number of C1 stitches between each sunflower. The S/M size has 1 stitch between them and the L/XL size has 3. You will see the L/XL size notated at the end of the instructions for each round in parentheses as follows: S/M (L/XL). For example: "In C1, K9 (K11)."
- ~ When you are working the colorwork section of this beanie, make sure to leave long enough floats so that the design doesn't pucker and to ensure that your beanie will fit.
- ~ In the written instructions, I have indicated which color to use by coloring the text. You will see **C1 in red**, **C2 in gold**, and **C3 in brown**.

Written Instructions (see page 4 for colorwork chart)
