

# Nivosa Hat

by Anya Hawkins

Nivosa Hat is a unisex wintery colorwork hat made with a DK weight yarn with two highly contrasting colors. Four adult sizes presented in a pattern ensure that you will be able to get a perfect fit for a desired look.

This hat has a great potential for experimenting with colors. You can use light background as shown in a sample and get classical wintery feel or you can reverse it and make it dark with striking light snowflakes. Even the largest size doesn't take a lot of yarn in any color so you can use this hat as a stash buster!

This pattern has a [complete video tutorial](#) to help you along. In this pattern you also have an opportunity to learn how to make a faux fur pompom. It is very easy with a help of another video tutorial. There is also a tutorial for a fleece lining for a hat. If you have sensitive skin on your forehead or just don't want to have an imprint of a ribbing after wearing a hat, or if your winter is too cold and windy for a knitted hat – give it a try! The links for the [video tutorial for lining](#) and for [making a faux fur pompom](#) are provided.

Sample on photo is in size M on a model with a 21,8" (54.5 cm) head in circumference.

## Pattern Notes

Nivosa Hat is knit in the round from the bottom up.

Crochet cast on provides stable and sufficiently stretchy beginning for a classical one by one rib. (Other stretchy cast on may be used if you have a preferred one.)

The body of the hat continues with snowflake inspired colorwork that can be done in dark color on a light background as shown in sample or can be reversed to get very different effect. Any two colors may be used depending on knitter's preference.

Crown is shaped with simple knit two together decreases in just a few rows which results in a slightly gathered shape which is perfect for topping with a pompom.

## Finishing

Break yarn, leaving a 6" (15 cm) tail. Using tapestry needle, feed the tail through remaining stitches, removing them from the needles. Pull tight. Bring tail through to the inside.

Weave in all ends.

Wet block the hat to adjust the size and even out the colorwork pattern.

Make pompom from leftover MC yarn or CC yarn or from a mix of both according to pompom maker instructions. Or take a pre-made pompom. Or make a faux fur pompom following [video tutorial](#).

Attach pompom to the hat after blocking by sewing it in place or using sewn on snap.
