## HOW TO CHOOSE A SIZE

For a comfortable fit, these socks are meant to be worn with a 10% negative ease. For children sizes, the finished foot circumference is approximately 1.3cm/ $\frac{1}{2}$ " smaller than actual foot circumference. For adult sizes, the finished foot circumference is approximately 2.5cm/1" smaller than actual foot circumference.

Example: If your foot circumference measures 15cm/6", your sock size should be 14cm/5 $\frac{1}{2}$ ". If your foot circumference measures 30.5cm/12", your sock size should be 28cm/11". For children sizes, the sock length should be 0.6cm/ $\frac{1}{4}$ " shorter than actual foot length. For adult sizes, the sock length should be 1.3cm/ $\frac{1}{2}$ " shorter than actual foot length.

Feel free to adjust sock height and length for best fit.

## CONSTRUCTION

The snofrost socks are knitted from top-down and in the round. The pair features colourwork motif throughout. The heels are knitted using the afterthought heel technique. The final heel and toe stitches are grafted together using kitchener stitch.

## NOTES

Colourwork chart is read from bottom to top and right to left. You can choose to "mismatch" the socks as in the samples or knit two identical socks. The colours listed are based on the sample that starts with colour a. Please remember to swatch to ensure you have the right gauge before beginning. Stranded colourwork might affect your usual gauge so please remember to adjust needle size as needed.
